# 2022 ANNUAL LIST OF PRIORITY PROJECTS

## OVERVIEW

The North Florida Transportation Planning Organization (North Florida TPO) Transportation Improvement Program (TIP) for Fiscal Years 2023/2024 through 2027/2028 begins with preparing a "List of Priority Projects" to be used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program. The "List of Priority Projects" identifies potential projects to be funded in the new fifth year (2027/2028) of the FDOT Work Program. However, by creating the Strategic Intermodal System (SIS) and the Transportation Regional Incentive Program (TRIP) in Florida, the "List of Priority Projects" now includes potential projects to be funded in other years of the FDOT Work Program under the SIS and TRIP programs. The "List of Priority Projects" includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and Transportation Regional Incentive Program (TRIP) projects\*.

The North Florida TPO expects all projects currently programmed in the FDOT Work Program to advance to the next development phase. This will ensure that implementing the 3-C planning process (continuing, cooperative, and comprehensive) in the North Florida TPO area is being implemented, as required by federal and state statutes. If FDOT cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent that the agency provides an explanation to the North Florida TPO.

## PROJECT PHASING

- Project Development and Environment (PD&E)
- Preliminary Engineering (PE)
- Right-of-Way (ROW)
- Construction (CST)

---

\* Intended adoption is at the March TPO Board Meeting, following review by the TAC and CAC.

### 2045 LONG RANGE TRANSPORTATION PLAN

On November 14, 2019 the North Florida TPO adopted Path Forward 2045, a fiscally constrained Long Range Transportation Plan for Clay, Duval, Nassau and St. Johns Counties. Concurrent with this effort the following documents were prepared:

- **Resilience and Vulnerability**
  - The North TPO examined the vulnerability of major roads in the region. Vulnerability is ranked from low to high. The vulnerability rating of relevant facilities is indicated on the List of Region-Wide Priority Projects. Supporting documentation is available at: <http://pathforward2045.com/wp-content/uploads/2019/08/Resiliency-Phase-II-Tech-Memo-1Finalv3.pdf>
  - Region-wide priority projects identified as at risk in this report are identified by vulnerability category.
- Low Vulnerability
- Moderate-Low Vulnerability
- Moderate High Vulnerability
- High Vulnerability
- **Regional System Safety Plan**
  - This plan was updated. It identifies high crash corridors, high crash intersections and corridors with a high incidence of bicycle and pedestrian crashes. High crash corridors are identified on the List of Region-Wide Priority Projects. Supporting documentation is available at: [https://northfloridatpo.com/uploads/Studies/FINAL\\_RSSP\\_NOV2019.pdf](https://northfloridatpo.com/uploads/Studies/FINAL_RSSP_NOV2019.pdf)
  - Region-wide priority projects on HIGH CRASH CORRIDORS are identified as such.
- **Congestion Management Process**
  - The Congestion Management Process was updated. Supporting documentation is available at: [https://northfloridatpo.com/uploads/Studies/performance/2019\\_NFTP\\_CMP.pdf](https://northfloridatpo.com/uploads/Studies/performance/2019_NFTP_CMP.pdf)

All documentation for the 2045 Long Range Transportation Plan is available at [www.pathforward2045.com](http://www.pathforward2045.com) and at <http://northfloridatpo.com/planning/lrtp>

## LIST OF PRIORITY PROJECTS PROCESS

### Develop List of Candidate Projects (*January*)

1. A list of candidate projects is developed from the following:
  - Projects in the previous year *List of Priority Projects* not funded through construction.
  - Local County/City submittals within the North Florida TPO area
  - Local Airport and Transit Authority submittals within the North Florida TPO area
  - Concurrency Management Process
  - Public Input
2. Project Ranking (*February*)
  - Unless otherwise indicated, projects were initially prioritized in Path Forward 2045, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2019
  - TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.
  - Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.
  - Adopting the List of Priority Projects (March)
  - Following approval by the North Florida TPO, the List of Priority Projects is submitted to FDOT for use in developing the Five-Year Tentative Work Program.

Cooperation and support of other regional ports is required.

Study of Potential Ingress/Egress Improvements at the Port of Fernandina – an analysis of necessary improvements to enhance fluidity of truck movements in and out of the Port and decrease impact on local streets.

Traffic Study and Truck Survey – update current studies of the capacity of State Road 200 to support additional growth of the Port.

Design & Construction of Office Space at the Port for the US Customs & Border Patrol and the Port Authority – required by federal statute. Needs to be completed and online by end of 2023.
