

## Transportation Improvement Program (TIP) Fiscal Years 2023/24 – 2027/28

**ADOPTED**  
June 8, 2023

## TRANSPORTATION IMPROVEMENT PROGRAM

FY 2023/24 - FY 2027/28

The Transportation Improvement Program has been developed consistent with federal and state requirements and approved by the North Florida TPO June 8, 2023.

A handwritten signature in black ink, appearing to read "Mike Cole", is written above a horizontal line.

The Honorable Mike Cole, Chairman

The preparation of this report has been financed in part through grants from the Federal Highway Administration and Federal Transit Administration, U.S. Department of Transportation, under the Metropolitan Planning Program, Section 104(f) of Title 23, U.S. Code. The contents of this report do not necessarily reflect the official views or policy of the U.S. Department of Transportation.

Section PI - Project Index . . . . .	PI-1

# **SECTION I**

## **Executive Summary**

## **EXECUTIVE SUMMARY**

### **PURPOSE**

The Transportation Improvement Program (TIP) is a staged multi-year program of transportation project improvements to be implemented during the next five-year period in the North Florida TPO area which will be funded by Title 23 U.S.C. and 49 U.S.C Chapter 53 funds and includes all regionally significant projects regardless of funding source. In addition, for information purposes and air quality conformity analysis, the TIP identifies all regionally significant transportation projects requiring Federal Highway Administration (FHWA) and/or Federal Transit Administration (FTA) approval, regardless of funding source(s), as defined in 40 CFR 51.392. The TIP also includes a listing of projects that are financed with non-federal dollars, which assist local governments within the North Florida TPO area with their transportation planning efforts. Projects listed in the TIP include recommended improvements consistent with the approved 2045 Long Range Transportation Plan and the adopted comprehensive plans of member local governments within the North Florida TPO area. In addition, non-federally funded projects are included for information.

### **TIME FRAME**

This document includes a five-year implementation schedule for Fiscal Year 2023/2024 through Fiscal Year 2027/2028. Herein, Fiscal Year July 1, 2023 to June 30, 2024 pertains to the Florida Department of Transportation (FDOT). All other agency projects proposed within the five-year TIP are based upon the fiscal year beginning October 1 through September 30.

### **FINANCIAL PLAN**

The TIP is financially constrained for each year. Federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT Tentative Work Program and locally dedicated transportation revenues. A five-year financial summary of federally funded projects is included in the TIP. This summary provides a listing of the federal funding codes as well as the dollar amounts allocated to each by fiscal year. Also included in the financial summary by funding code is a project list to be implemented, project description, phasing schedule by fiscal year, and the amount of funds allocated.

To further ensure the financial soundness of the TIP, all projects funded by the FDOT with federal or non-federal dollars are considered committed projects if included in the first three years of the FDOT Five-Year Work Program. Section 339.135 (4)(b)(5) Florida Statutes mandates that the FDOT Work Program includes a balanced 36-month forecast of cash and expenditures and a five-year finance plan supporting the Work Program. All local government projects (non-federally funded) that are included in the TIP are part of a member local government's capital improvement program. Non-federally funded projects with funding in the first year of local government

capital improvement elements or capital improvement programs are considered to be committed projects, as indicated in Part II of the TIP. Additional projects that would be included in the approved TIP if reasonable additional resources beyond those identified in the financial plan were available may be identified pursuant to s.339.175(8)(c)(3), F.S.

The TIP is developed by the TPO in cooperation with the State and the public transit operator, who will provide the TPO with estimates of Federal and State funds in order for the TPO to develop the financial plan

## **YEAR OF EXPENDITURE (YOE)**

The TIP is presented in Year of Expenditure (YOE) dollars, which are adjusted for inflation from the present time to the expected year of construction. Using YOE ensures that the more accurate cost estimates are used in planning, programming and implementing projects.

Planning regulations require that revenue and cost estimates in the Long Range Transportation Plan (LRTP), State Transportation Improvement Program (STIP) and the TIP must use inflation or growth rate(s) to reflect “year of expenditure dollars,” based on reasonable financial principles and information, developed cooperatively by the State, MPOs and public transportation operators.

## **CONSISTENCY**

All projects in the TIP are supported and documented in the 2045 LRTP adopted November 14, 2019. Regionally significant projects have individual LRTP reference numbers in each TIP item. All other projects are supported in the 2045 LRTP in the Goals and Objectives found in Appendix III. To the maximum extent feasible, projects are consistent with port and aviation master plans, public transit developments plans and approved local government comprehensive plans.

The TIP projects are also consistent with the State Freight Plan and Asset Management Plan. Here are the links to those plans: <https://www.fdot.gov/rail/plandev/freight-mobility-and-trade-plan> and <http://www.fdot.gov/planning/TAMP/TAMP-2015.pdf>.

## **PROJECT PRIORITY STATEMENT**

The TIP for Fiscal Years 2023/2024 through 2027/2028 begins with the *List of Priority Projects (LOPP)* which is used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program FY 2023/24 – 2027/28. The LOPP identifies potential projects to be funded in the new fifth year (FY 2027/2028) of the FDOT Work Program.

Projects are first prioritized in the LRTP. Prioritization is detailed in <http://pathforward2045.com/documents/> The LOPP is submitted

annually to FDOT to recommend inclusion of candidate projects in the Florida Work Program. The LOPP includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and TRIP projects.

Projects selected are consistent with provisions of the Fixing America's Surface Transportation Act, or "FAST Act," the Florida Department of Transportation's Adopted Five Year Work Program, and federal requirements including 23 C.F.R 450.332(c).. The projects are financially feasible for the appropriate funding category and represent the North Florida TPO's priorities. The FY 2023/2024 through 2027/2028 TIP is consistent with the adopted 2045 LRTP.

The LOPP process is as follows:

1) Develop List of Candidate Projects (*December – March*)

a) A list of candidate projects is developed from the following:

- Projects in the previous year List of Priority Projects not funded through construction.
- Local County/City submittals within the North Florida TPO area
- Local Airport and Transit Authority submittals within the North Florida TPO area
- Concurrency Management Process
- Public Input

2) Ranking the List of Candidate Projects (*February*)

a) Unless otherwise indicated, projects were initially prioritized in Path Forward 2045, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2019

b) TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.

c) Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.

3) TPO Board approval and submittal of the *List of Priority Projects to FDOT (March)*

## **PUBLIC PARTICIPATION**

As a result of the North Florida TPO Public Participation Process, developed and adopted pursuant to the requirements of 23 CFR 450.316(b)(1), the North Florida TPO is committed to effective and enhanced public involvement in developing its plans and programs. Public input into the TIP is accomplished by a combination of the following:

While developing the TIP, County-specific PowerPoint virtual presentations were delivered for Clay, Duval, Nassau and St Johns Counties as well as a Regional TIP Virtual public meeting. Recordings of these presentations were posted online. The TIP was also presented at the North Florida TPO TAC, CAC and Board meetings for input and feedback.

The TIP was developed with reasonable opportunity for public comment in accordance with the requirements of 23 CFR 450.316 and 23 C.F.R 450.326(b). In addition of sharing the TIP meeting information with TPO Committees and county / city contacts, our public involvement efforts included promoting the virtual presentations through the TPO's e-newsletter, newspaper advertising, TPO's social media, as well as through JaxTDY (JaxToday.org), a daily email publication by WJCT with a 12,000-person audience.

The draft TIP was made available to the general public and groups' identified above for review and comments via the TPO website: <http://northfloridatpo.com/>. A web-based public involvement tool was used to gather input. All comments and responses are documented in Appendix VI. Comments are forwarded to the responsible agency.

## **TIP MODIFICATION AND AMENDMENT PROCESS**

The TIP modification and amendment process is outlined in the North Florida TPO Public Participation Plan on the TPO website: [https://northfloridatpo.com/uploads/TPO-Public-Participation-Plan-2023-Update\\_2023-02-28-155023\\_tquy.pdf](https://northfloridatpo.com/uploads/TPO-Public-Participation-Plan-2023-Update_2023-02-28-155023_tquy.pdf)

## **CERTIFICATION**

The North Florida TPO's Federal Transportation Management Area (TMA) quadrennial certification review was conducted virtual May 5, 2020. FHWA and FTA jointly certified that the transportation planning process of the North Florida TPO, substantially meets the federal planning requirements in 23 CFR 450 Subpart C. This certification remains in effect until September 2024.

In the interim of the Federal quadrennial review process, the North Florida TPO and FDOT annually conducts a Joint Certification, which was last completed April 13, 2023.

## **MANAGEMENT SYSTEMS**

The North Florida TPO Congestion Management Process (CMP) was updated June 2019. It identifies many improvements that can enhance traffic operations, decrease congestion and improve the travel environment. These improvements include transportation demand management (TDM) strategies, strategies to promote increased transit, bicycle and pedestrian travel, and strategies that provide for more efficient traffic operations. Traffic operations and access management strategies include Intelligent Transportation Systems (ITS) and emerging technology solutions. These strategies are being incorporated into the TIP as funding becomes available. The projects that are included in this TIP are consistent with the Congestion Management System, as well as the projects that were advanced from previous TIPs.

All capital improvement projects on identified congestion management corridors and/or hot spots will be considered for congestion management. The TIP development committee identifies projects from the CMP to be included in the TIP based on the following criteria: 1) identify high priority projects based on the ranking provided for the congested corridors within the CMP; and 2) obtain stakeholder input on the projects identified and refine the order based on their input. The projects listed in the TIP identify a funding source to implement the proposed improvement(s) on the selected congested corridors.

## **FULL PROJECT COSTS AND OTHER PROJECT DETAILS**

### **Strategic Intermodal System (SIS) Projects**

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) or Design Build (DSB) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects on the SIS will have historical costs, five years of the current TIP and five years beyond the current TIP, which may or may not be the total project cost. If there is no CST or DSB phase on the TIP page, then the entry will probably not reflect the total project cost. For some projects, such as resurfacing, safety or operational project, there may not be a total cost provided but rather additional details on that program.

The SIS is a network of high priority transportation facilities which includes the state's largest and most significant commercial service airports, spaceport, deepwater seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways and highways. All projects on the SIS will have a SIS identifier on the TIP page. For costs beyond the 10-year window, access to the Long Range Transportation Plan (LRTP) is provided. The link to the North Florida TPO Long Range Transportation Plan is <https://northfloridatpo.com/uploads/2045-LRTP-Summary-Report.pdf>. The LRTP reference on the TIP page is from the Path Forward 2045 LRTP Project Master List located in Appendix II and provides details regarding the project in the LRTP. Full project cost information can be found in Appendix VII of the TIP document. If there is no LRTP reference in the TIP, total project costs are provided in the TIP.

### **Non SIS projects**

The normal project production sequence is to have a Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. Some projects may not have a ROW phase, if land is not needed to complete the project. Costs on the TIP pages for projects not on the SIS will have historical costs and five years of the current TIP, which may or may not be the total project cost. If there is no CST phase on the TIP page, then the entry will probably not reflect the total project cost. For some projects, such as resurfacing, safety or operational projects, there may not be a total cost provided but rather additional details on that program.

Total project costs and other project details will be accessible in the TIP for all non SIS projects in the TIP. All projects not on the SIS will have a Non-SIS identifier on the TIP page.

For costs beyond the five-year window, access to the LRTP is provided. The link to the North Florida TPO Long Range Transportation Plan is <https://northfloridatpo.com/uploads/2045-LRTP-Summary-Report.pdf>. The LRTP reference on the TIP page is from the Path Forward 2045 LRTP Master Project List located in Appendix II and provides details regarding the project in the LRTP. Full project cost information can be found in Appendix VII of the TIP document. If there is no LRTP reference in the TIP, total project costs are provided in the TIP.

### **TRANSPORTATION DISADVANTAGED**

According to Rule 41-2.009(2), Florida Administrative Code, and Subsection 427.015(1), Florida Statutes, a transportation disadvantaged element will be included in the Metropolitan Planning Organization's Transportation Improvement Program. This element is required to include:

*"a project and program description, the planned costs and anticipated revenues for the services, identification of the year the project or services are to be undertaken and implemented and assurances that there has been coordination with local public transit and local government comprehensive planning bodies."*

Appendix VIII identifies the Transportation Disadvantaged project funding (TDTF) for the Clay, Duval, Nassau and St. Johns Counties. TDTF is 80% federal / 20% state. These funds are allocated to the Community Transportation Coordinator in each county. The Northeast Florida Regional Council serves as the designated official planning agency in coordinating transportation services for the transportation disadvantaged in Clay, Duval, Nassau and St. Johns Counties.

If you have any questions or comments pertaining to TPO plan, programs or projects **please contact us** at (904) 306-7500. Our address is 980 North Jefferson St., Jacksonville, FL 32209. For complaints, questions or concerns about civil rights or non-discrimination, or for special requests under the Americans with Disabilities Act, please contact **Marci Larson**, Public Affairs Manager/ Title VI Coordinator at (904) 306-7513 or [mlarson@northfloridatpo.com](mailto:mlarson@northfloridatpo.com)

### AGENCIES

FAA	Federal Aviation Administration
FHWA	Federal Highway Administration
FTA	Federal Transit Administration
JAA	Jacksonville Aviation Authority
JTA	Jacksonville Transportation Authority
SA/STJAA	St. Augustine/St. Johns County Airport Authority

### PROJECT PHASES

ADM	Administration
CAP	Capital
CST	Construction
DSB	Design Build
ENV	Environmental
INC	Contract Incentives
LAR	Local Advance Reimbursement

MNT	Bridge/Roadway/Contract Maintenance
MSC	Miscellaneous
OPS	Operations
PDE	Project, Development & Environment Study
PE	Preliminary Engineering
PLN	Planning
ROW	Right-of-Way Acquisition
RPY	Repayments
RRU	Railroad/Utilities

FUNDING SOURCES

ACBR	Advance Construction (BRT)
ACBZ	Advance Construction (BRTZ)
ACCM	Advance Construction (CM)
ACER	Advance Construction (ER)
ACFP	Ac Freight Prog (NFP)
ACID	Adv Construction Safety (HSID)
ACLD	Adv Construction Safety (HSLD)

ACNP	Advance Construction NHPP
ACNR	AC Nat Hwy Perform Resurfacing
ACPR	AC - Protect Grant Pgm
ACSA	Advance Construction (SA)
ACSL	Advance Construction (SL)
ACSM	STBG Area Pop. W/ 5k To 49,999
ACSN	Advance Construction (SN)
ACSS	Advance Construction (SS,HSP)
ACSU	Advance Construction (SU)
ARAL	Amer. Rescue Plan Alien Fund
ARDR	ARPA- SCETS Motor Fuel Tax
ARHF	ARPA- SHS Motor Fuel Tax
ARPA	American Rescue Plan Act
ARSC	Amer. Rescue Plan SCOP Pgm
ARSR	Amer. Rescue Plan SCRAP Pgm
ART	Arterial Highways Programs
ARTW	Arterial Widening Program

BNBR	Amendment 4 Bonds (BRIDGES)
BNDS	Bond - State
BNIR	Intrastate R/W & Bridge Bonds
BRP	State Bridge Replacement
BRRP	State Bridge Repair & Rehab
BRRR	Bridge Repair Railroads
BRTZ	Fed Bridge Repl - Off System
CARB	Carbon Reduction Grant Pgm
CARL	Carb For Urb. Less Than 200k
CARM	Carb For Sm. Urb. 5k - 49,999
CARN	Carb For Rural Areas < 5k
CARU	Carb For Urb. Area > Than 200k
CD23	Congress GF Earmarks HIP 2023
CIGP	County Incentive Grant Program
CM	Congestion Mitigation - AQ
D	Unrestricted State Primary
DC	State Primary PE Consultants

DDR	District Dedicated Revenue
DEM	Environmental Mitigation
DER	Emergency Relief - State Funds
DFTA	Fed Pass-Through \$ From FTA
DI	ST. - S/W Inter/Intrastate Hwy
DIH	State In-House Product Support
DIOH	State 100% - Overhead
DIS	Strategic Intermodal System
DITS	Statewide ITS - State 100%.
DL	Local Funds - PTO - Budgeted
DPTO	State – PTO
DRA	Rest Areas - State 100%
DS	State Primary Highways & PTO
DSB0	Unallocated To Facility
DSB1	Skyway
DSPC	Service Patrol Contract
DU	State Primary/Federal Reimb

DUCA	Transit Cares/CRRSAA Act
DWS	Weigh Stations - State 100%
EB	Equity Bonus
EM19	GAA Earmarks FY 2019
EM22	GAA Earmarks FY 2022
ER17	2017 Emergency Relief Events
ER19	2019 Emergency Relief Events
ER20	2020 Emergency Relief Events
F001	Federal Discretionary - US19
FAA	Federal Aviation Admin
FBD	Ferryboat Discretionary

# **APPENDIX III**

## **Path Forward Goals and Objectives**

## Path Forward 2045 Goals, Objectives, and Policies

---

It is North Florida Transportation Planning Organization's (TPO's) mission is to provide a regional forum for developing a transportation system that moves people and goods safely, economically and efficiently while maintaining a high quality of life in North Florida. The TPO's vision is to promote the regional optimization of mobility consistent with the values of local communities through the Long Range Transportation Plan (LRTP). The LRTP indicates the transportation improvements necessary for optimal movement of people and goods, based on current needs and forecasted future growth. The recommended transportation improvement projects in the plan are guided by defined goals, objectives, and performance measures.

Specifically, the LRTP goals and objectives are to enhance the following:

- Economic Competitiveness
- Livability
- Safety
- Mobility and Accessibility
- Equity in Decision Making
- System Preservation
- Resilient Multimodal Infrastructure
- Tourism Transport Management

The goals, objectives, and performance measures proposed are based on the transportation user's point of view as explained in the document below. The order of the goals and objectives do not indicate priority.

### GOAL 1: INVEST IN PROJECTS THAT ENHANCE ECONOMIC COMPETITIVENESS

---

Investing in projects that enhance economic competitiveness focusing on improving the following: travel time reliability (the most important factor for freight operators), enhance access to jobs, and maximizing return on investment.

The objectives associated with this enhancing economic competitiveness are listed below.

- **OBJECTIVE 1.1:** Improve travel reliability on major freight routes.

Performance Measure		Benchmark
1.1.1	Truck Travel Time Reliability The sum of maximum Truck Travel Time Reliability (TTTR) for each reporting segment, divided by the total Interstate System miles	Maintain or improve Truck Travel Time Reliability Calculation is only available on corridors with Blue Toad devices (I-10, I-95, SR 10, SR 21, SR 200, US 17, US 90, SR 13, I-295, US 1) Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 1.2:** Enhance access to jobs, services, and retail for all.

Performance Measure		Benchmark
1.2.1	Jobs within a half mile of a major arterial	Maintain or improve access to jobs Existing value is reported in the Congestion Management Process.
1.2.2	Projects that enhance access to jobs through transit	Evaluation of projects/scenarios

- **OBJECTIVE 1.3:** Maximize return on investment.

Performance Measure		Benchmark
1.3.1	Benefit/Cost ratio	Rank benefit to cost ratio in evaluation of projects/scenarios
1.3.2	Return on Investment	Rank return on investment in evaluation of projects/scenarios

## GOAL 2: INVEST IN LIVABLE AND SUSTAINABLE COMMUNITIES

There is no single definition of what constitutes a “livable” or “sustainable” transportation system. However, the North Florida TPO has adopted the following definition of a sustainable transportation system endorsed by the Transportation Research Board Sustainable Transportation Indicators Subcommittee:

*Allows the **basic access** and development needs of individuals, companies, and society to be met **safely** and in a manner consistent with **human and ecosystem health** and **promotes equity** within and between successive generations.*

*Is **affordable**, operates fairly and **efficiently**, offers a **choice of transportation modes**, and supports a **competitive economy**, as well as **balanced regional development**.*

***Limits air, water, noise emissions, waste and resource use.** Limits emissions and waste within the planet’s ability to absorb them, uses renewable resources at or below their rates of generation, and uses non-renewable resources at or below the rates of development of renewable substitutes, while minimizing the impact on the use of land and the generation of noise.*

The goals associated with livability and sustainability are listed below.

- **OBJECTIVE 2.1:** Enhance transit accessibility.

Performance Measure		Benchmark
2.1.1	Percent of Population within a quarter mile walk of a transit stop	Maintain or improve the percent of population within a quarter mile walk of a transit stop. Existing value is reported in the Congestion Management Process.
2.1.2	Population within 5 miles of park and ride lots	Maintain or improve the population within 5 miles of park and ride lots. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 2.2:** Enhance transit ridership.

Performance Measure		Benchmark
2.2.1	Passengers per vehicle revenue mile	Maintain or improve passengers per revenue mile. Existing value is reported in the Congestion Management Process.
2.2.2	Passengers per vehicle revenue hour	Maintain or improve passengers per revenue hour. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 2.3:** Enhance bicycle and pedestrian quality of service.

Performance Measure		Benchmark
2.3.1	Lane miles with bicycle and pedestrian facilities	Maintain or improve lane miles with bicycle and pedestrian facilities. Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 2.4:** Reduce the cost of congestion per capita.

Performance Measure		Benchmark
2.4.1	Cost of congestion	Maintain or reduce the cost of congestion. Existing value is reported in the Congestion Management Process.
2.4.2	Congestion cost per capita	Maintain or reduce congestion cost per capita. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 2.5:** Reduce the impacts of investments on the natural environment.

Performance Measure		Benchmark
2.5.1	Environmental screening and mitigation	Apply Efficient Transportation Decision Making Process to all projects in LRTP.

- **OBJECTIVE 2.6:** Reduce emissions from automobiles.

Performance Measure		Benchmark
2.6.1	Carbon dioxide, nitrous oxides, and volatile organic compound emissions due to reduced delay.	Estimate emission reduction due to reduced delay in the evaluation of projects/scenarios. Existing value is reported in the Congestion Management Process.
2.6.2	Emissions due to vehicle electrification	Estimate emission reduction due to electrification of the vehicle fleet. <sup>1</sup>

<sup>1</sup>The TPO has an Alternative Fuels Master Plan and a Clean Fuels Program promoting alternative fuels and alternative fuel vehicles.

- **OBJECTIVE 2.7:** Ensure consistency with land use planning.

Performance Measure		Benchmark
---------------------	--	-----------

2.7.1	Includes active transportation design principles in context sensitive solutions	Include walkability standards in context sensitive solutions.
2.7.2	Land Use scenarios are consistent with county comprehensive plans	Ensure consistency with comprehensive plans.

- **OBJECTIVE 2.8:** Support regional evacuation needs.

Performance Measure		Benchmark
2.8.1	Projects that improve evacuation routes.	Evaluation of projects/scenarios.

- **OBJECTIVE 2.9:** Support micro transit, mobility as a service (MaaS) and other new and innovative transit options

### GOAL 3: ENCOURAGE SAFE AND SECURE TRAVEL

---

Investing in projects that enhance safety will lead to reduced crashes and lower crash severity for all modes.

- **OBJECTIVE 3.1:** Reduce crashes for all modes.

Performance Measure		Benchmark
3.1.1	Number of vehicle crashes	Reduce the number of vehicle crashes. Existing value is reported in the Congestion Management Process.
3.1.2	Crash rate per million vehicle miles	Reduce the crashes rate. Existing value is reported in the Congestion Management Process.
3.1.3	Number of serious injuries	Reduce the crashes rate. Existing value is reported in the Congestion Management Process.

3.1.4	Rate of serious injuries per million vehicle miles	Reduce the number of serious injuries. Existing value is reported in the Congestion Management Process.
3.1.5	Number of non-motorized fatalities and non-motorized serious injuries	Reduce the number of non-motorized fatalities and non-motorized serious injuries. Existing value is reported in the Congestion Management Process.
3.1.6	Number of bicycle crashes	Reduce the number of bicycle crashes. Existing value is reported in the Congestion Management Process.
3.1.7	Number of pedestrian crashes	Reduce the number of pedestrian crashes. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 3.2:** Reduce fatal crashes for all modes.

Performance Measure		Benchmark
3.2.1	Number of fatalities	Reduce the number of fatalities. Existing value is reported in the Congestion Management Process.
3.2.2	Fatality rate per million vehicle miles	Reduce the fatality rate. Existing value is reported in the Congestion Management Process.
3.2.3	Number of bicycle fatalities	Reduce the number of bicycle fatalities. Existing value is reported in the Congestion Management Process.
3.2.4	Number of pedestrian fatalities	Reduce the number of pedestrian fatalities. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 3.3:** Promote the implementation of safety and security improvements in the design or retrofit of all transportation systems.

Performance Measure		
3.3.1	Implemented safety measures on high crash corridors identified in the Regional Strategic Safety Plan.	Reported in the Regional Strategic Safety Plan.

- **OBJECTIVE 3.4:** Enhance security for all modes through the appropriate use of authorized access, surveillance systems and Intelligent Transportation Systems (ITS).

Performance Measure		
3.4.1	All transit projects are required to have a Threat and Vulnerability Assessment.	A Threat and Vulnerability Assessment considers the full spectrum of threats (natural, criminal, terrorist, accidental, etc)

		for a given facility/location as well as the vulnerability of the facility/location to an attack.
--	--	---

## GOAL 4: ENHANCE MOBILITY AND ACCESSIBILITY

Enhancing mobility includes addressing the four dimensions of mobility – quantity of travel, quality of travel, system accessibility and system utilization. Several of these measures also support other goals and objectives (such as livability and sustainability).

Mobility is about more than increasing the volume of persons served and managing congestion. Users want a less stressful commute, but they also want improved reliability of their travel, more choices including transit, walking, and bicycling and to ensure we optimize system operations before we invest in new infrastructure. Understanding the trade-offs of these goals in the context of each corridor being considered is an essential element to identifying the right mobility solution for any project.

- **OBJECTIVE 4.1:** Optimize the quantity of travel.

Performance Measure		Benchmark
4.1.1	Vehicle-miles traveled	Generally, increases in the quantity traveled (throughout) are preferred. However, consistent with livability and sustainability goals, one objective is to reduce the amount of travel needed. Therefore, no benchmarks are proposed, but monitoring is recommended. Existing values are reported in the Congestion Management Process.
4.1.2	Person-miles traveled	
4.1.3	Truck-miles traveled	
4.1.4	Vehicle Occupancy	
4.1.5	Transit ridership	Increase transit ridership Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 4.2:** Optimize the quality of travel.

Performance Measure		Benchmark
4.2.1	Average Travel Speed	Maintain or improve the average travel speed Existing value is reported in the Congestion Management Process.

4.2.2	Average Vehicle Delay	Maintain or reduce the average vehicle delay Existing value is reported in the Congestion Management Process.
4.2.3	Average Commute Time	Maintain or reduce the average commute time Existing value is reported in the Congestion Management Process.

Performance Measure		Benchmark
4.2.4	Interstate Level of Travel Time Reliability - Percent of person-miles traveled on the Interstate that are Reliable	Maintain or improve the Interstate Level of Travel Time Reliability. Calculation is only available on corridors with Blue Toad devices (I-10, I-95, I-295) Existing values are reported in the Congestion Management Process.
4.2.5	Non-Interstate Level of Travel Time Reliability - Percent of person-miles traveled on the Non-Interstate that are Reliable	Maintain or improve the Non-Interstate Level of Travel Time Reliability. Calculation is only available on corridors with Blue Toad devices (SR 10, SR 21, SR 200, US 17, US 90, SR 13, US 1) Existing values are reported in the Congestion Management Process.
4.2.5	Level of service on rural facilities	Maintain the level of service standard (FDOT standard for Strategic Intermodal System facilities and local government standards for other facilities) Existing values are reported in the Congestion Management Process.

- **OBJECTIVE 4.3:** Improve the accessibility to mode choices.

Performance Measure		Benchmark
4.3.1	Percent of system miles with bicycle accommodations	Maintain or improve the percent of system miles with bicycle accommodations. Existing value is reported in the Congestion Management Process.

4.3.2	Percent of system miles with pedestrian accommodations	Maintain or improve the percent of system miles with pedestrian accommodations. Existing value is reported in the Congestion Management Process.
4.3.3	Transit coverage – Percent of population within quarter mile of a transit route	Increase the percent of population within quarter mile of a transit route. Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 4.4:** Optimize the utilization of the system.

Performance Measure		Benchmark
4.4.1	Percent of system heavily congested	Maintain or reduce the percent of system heavily congested.  Existing value is reported in the Congestion Management Process.
4.4.2	Percent of travel heavily congested	Maintain or reduce the percent of travel heavily congested. Existing value is reported in the Congestion Management Process.
4.4.3	Vehicles per lane mile	Optimize the vehicles per lane mile for a desired LOS Existing value is reported in the Congestion Management Process.
4.4.4	Duration of congestion	Maintain or reduce the duration of congestion Existing value is reported in the Congestion Management Process.
4.4.5	Transit average load (Passengers per transit vehicle)	Optimize the transit average load for a desired quality of service Existing value is reported in the Congestion Management Process.

## GOAL 5: ENHANCE EQUITY IN DECISION MAKING

Enhancing equity in decision making emphasizes the principle of 'Environmental Justice'. The United States Environmental Protection Agency (EPA) defines Environmental Justice as follows.

*Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. EPA has this goal for all communities and persons across this Nation [sic]. It will be achieved when everyone enjoys the same degree of protection from environmental and health hazards and equal access to the decision-making process to have a healthy environment in which to live, learn, and work.*

Additionally, the United States Department of Transportation defines three fundamental Environmental Justice principles for the Federal Highway Administration and the Federal Transit Administration as follows:

- 1. To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations.*
- 2. To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process.*
- 3. To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.*

To address these goals, these three principles are adopted as objectives for this LRTP listed below. The performance measures associated with each objective are less quantifiable than the objectives associated with other goals and are more process oriented. These three factors will be considered as part of the Needs Plan and Cost Feasible Plan and will be implemented using Geographic Information Systems techniques to identify the minority and low-income populations and by designing outreach programs to involve minority and low-income populations.

- **OBJECTIVE 5.1:** Avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects (including social and economic effects) on minority and low-income populations.

The performance of this objective is qualitative.

- **OBJECTIVE 5.2:** Ensure full and fair participation by all potentially affected communities in the transportation decision-making process.

Performance Measure
---------------------

5.2.1	Adherence to the Public Involvement Plan
-------	--

- **OBJECTIVE 5.3:** Prevent the denial of, reduction in, or significant delay of the receipt of benefits by minority and low-income populations.

Performance Measure		Benchmark
5.3.1	Number of projects in low income and minority census tracts	Evaluation of projects/scenario

- **OBJECTIVE 5.4:** Provide Ladders of Opportunity.

Performance Measure		Benchmark
5.4.1	Number of projects in low income and minority census tracts	Evaluation of projects/scenario
5.4.2	Jobs within a half mile of a state road	Maintain or improve access to jobs Existing value is reported in the Congestion Management Process.
5.4.3	Projects that enhance access to jobs through transit	Evaluation of projects/scenarios

## GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM

Preserving and maintaining the existing system is integral to the optimization of mobility. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) established formal goals and objectives for systems preservation that are proposed for adoption as part of this LRTP. They include:

1. Have 95 percent of the Strategic Intermodal System in good or better condition.
2. Have 85 percent of other arterials in good or better condition.
3. Strengthen bridges that are either (1) structurally deficient or (2) posted for weight restriction within six years on FDOT facilities.
4. Replace bridges that require structural repair and are more cost effective to replace within nine years on FDOT facilities.
5. Satisfy FDOT's off system bridge replacement goals.
6. Maintain signing and pavement markings to accommodate all users including automated vehicles.

7. Maintain technology/infrastructure introduced to accommodate connected vehicles.

In addition, the objective of the systems preservation and maintenance goal is to provide a transit fleet that meets Federal Transit Administration's (FTA's) requirements for system preservation, vehicle age and maintenance.

The objectives for preserving and maintaining the existing system are listed below.

- **OBJECTIVE 6.1:** Maintain and update roadways to current standards.

Performance Measure		Benchmark
6.1.1	Percent of Interstate Pavement in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.1.2	Percent of Interstate Pavement in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.1.3	Percent of Non-Interstate Pavement in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.1.4	Percent of Non-Interstate Pavement in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 6.2:** Maintain and update bridges to current standards

Performance Measure		Benchmark
6.2.1	Percent of National Highway System Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.2	Percent of National Highway System Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.2.3	Percent of State Highway Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.4	Percent of State Highway Bridges in Poor Condition	Maintain or reduce

		Existing value is reported in the Congestion Management Process.
6.2.5	Percent of Non-State Highway Bridges in Good Condition	Maintain or improve Existing value is reported in the Congestion Management Process.
6.2.6	Percent of Non-State Highway Bridges in Poor Condition	Maintain or reduce Existing value is reported in the Congestion Management Process.

- **OBJECTIVE 6.3:** Maintain and update transit systems to current standards

Performance Measure		Benchmark
6.3.1	Average Age of Vehicles	Maintain or reduce Existing value is reported in the Congestion Management Process.
6.3.2	Average Rating of Facilities on TERM Scale	Maintain or improve Fall below 3.0

## GOAL 7: CREATE RELIABLE AND RESILIENT MULTIMODAL INFRASTRUCTURE

A reliable and resilient multimodal transportation infrastructure provides accessible and diverse transportation options that ensure mobility, system preservation, supports evacuation needs, and addresses social equity.

The objectives for reliable and resilient multimodal infrastructure are listed below.

- **OBJECTIVE 7.1:** Incorporate climate risk in project planning, system preservation and maintenance and determine appropriate measures to mitigate risk or repurpose threatened facilities.

Performance Measure		Benchmark
7.1.1	Consideration for vulnerable, at-risk facilities	Evaluation of projects/scenarios

- **OBJECTIVE 7.2:** Provide reliable mobility access and minimize impact of disruptions to regional mobility.

The performance of this objective is qualitative.

- **OBJECTIVE 7.3:** Support regional evacuation needs as reflected in municipal Emergency Management Plans.

Performance Measure	Benchmark

7.3.1	Number of projects on an evacuation route	Evaluation of projects/scenarios
-------	---	----------------------------------

- **OBJECTIVE 7.4:** Address social equity in adaptation/resilience strategy implementation.

Performance Measure		Benchmark
7.4.1	Number of projects in low income census tracts	Evaluation of projects/scenarios

## GOAL 8: ENHANCE TOURISM TRANSPORT MANAGEMENT

Tourism Transport Management involves improving transportation options for recreational, event, and general tourism travel to enhance the overall transportation system while improving mobility and transportation options.

The objectives for tourism transport management are listed below.

- **OBJECTIVE 8.1:** Develop a Regional Tourism Transport Management Program.

Performance Measure	
8.1.1	Complete Regional Tourism Transport Management Plan

- **OBJECTIVE 8.2:** Improve and provide diverse tourism transportation options.

Performance Measure		Benchmark
8.2.1	Number of projects in high tourism areas	Evaluation of projects/scenarios

- **OBJECTIVE 8.3:** Encourage the integration of alternative transportation into tourist activities.

Performance Measure	
8.3.1	County comprehensive plans include alternative transportation for tourists

## GOAL 9: ENSURE NORTH FLORIDA IS READY FOR CONNECTED AND AUTONOMOUS VEHICLES AND INTERNET OF THINGS (IOT) TECHNOLOGIES THAT SUPPORT TRANSPORTATION

The North Florida Region will continue to embrace emerging technologies, including connected and automated vehicles, Internet of Things (IoT) components and advanced data management and analytics, preparing the transportation infrastructure in the region for these advances in transportation technology.

FDOT's Office of Policy Planning has recently developed "Guidance for Assessing Planning Impacts and Opportunities of Automated, Connected, Electric and Shared-Use (ACES) Vehicles" that outlines 33 elements that Transportation Planning Organizations (TPO's) in Florida should consider in their short, medium and long-range planning. These elements should be adopted by the TPO in future work efforts.

The objectives to ensure North Florida is ready for Connected and Autonomous Vehicles (CAV) and IoT technologies are listed below.

- **OBJECTIVE 9.1:** Deploy a regional data exchange

Performance Measure	
9.1.1	Complete Phase I of the data exchange
9.1.2	Develop a CV module for CV data storage and analytics

- **OBJECTIVE 9.2:** Prepare infrastructure for connected and automated vehicles

Performance Measure		Benchmark
9.2.1	Miles of vehicle to infrastructure (V2I) technology (DSRC, C-V2X, or 5G)	Increase miles of V2I technology
9.2.2	Miles of fiber optic cable	Increase miles of fiber optic cable

- **OBJECTIVE 9.3:** Implement cybersecurity measures and best practices throughout the system to protect user privacy and data and to ensure safe operations.

Performance Measure	
9.3.1	Complete Cybersecurity Plan
9.3.2	Develop and Implement Strategy for Security Credential Management Plan (SCMS)

- **OBJECTIVE 9.4:** Develop and implement policies that support connected and automated vehicles

Performance Measure	
9.4.1	Complete a Connected and Autonomous Vehicle Policy Plan

- **OBJECTIVE 9.5:** Deploy strategies to support First Mile/Last Mile travel options.

Performance Measure	
9.5.1	Complete First Mile/Last Mile Plan

- **OBJECTIVE 9.6:** Incorporate CAV into the North Florida Travel Demand Model.

Performance Measure	
9.6.1	CAV included in the North Florida Travel Demand Model

- **OBJECTIVE 9.7:** Implement scenario planning activities surrounding Connected, Automated, Electric and Shared vehicles to determine the impacts on network usage, funding and other performance measures.

Performance Measure	
9.7.1	Develop scenarios surrounding ACES
9.7.2	Develop scenario planning methodology to determine impacts on the network usage, funding, and other performance measures

- **OBJECTIVE 9.8:** Consider Autonomous Vehicle only lanes or zones to support enhanced mobility opportunities resulting from automated vehicles.

Performance Measure	
9.8.1	Complete a study on autonomous vehicle only lanes or zones

# 2022 ANNUAL LIST OF PRIORITY PROJECTS

## OVERVIEW

The North Florida Transportation Planning Organization (North Florida TPO) Transportation Improvement Program (TIP) for Fiscal Years 2023/2024 through 2027/2028 begins with preparing a "List of Priority Projects" to be used in developing the Florida Department of Transportation's (FDOT) Tentative Five Year Work Program. The "List of Priority Projects" identifies potential projects to be funded in the new fifth year (2027/2028) of the FDOT Work Program. However, by creating the Strategic Intermodal System (SIS) and the Transportation Regional Incentive Program (TRIP) in Florida, the "List of Priority Projects" now includes potential projects to be funded in other years of the FDOT Work Program under the SIS and TRIP programs. The "List of Priority Projects" includes a prioritized listing of state highway, mass transit, aviation, intermodal, and Transportation Alternative Program (TAP) and Transportation Regional Incentive Program (TRIP) projects\*.

The North Florida TPO expects all projects currently programmed in the FDOT Work Program to advance to the next development phase. This will ensure that implementing the 3-C planning process (continuing, cooperative, and comprehensive) in the North Florida TPO area is being implemented, as required by federal and state statutes. If FDOT cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent that the agency provides an explanation to the North Florida TPO.

## PROJECT PHASING

- Project Development and Environment (PD&E)
- Preliminary Engineering (PE)
- Right-of-Way (ROW)
- Construction (CST)

---

\* Intended adoption is at the March TPO Board Meeting, following review by the TAC and CAC.

### 2045 LONG RANGE TRANSPORTATION PLAN

On November 14, 2019 the North Florida TPO adopted Path Forward 2045, a fiscally constrained Long Range Transportation Plan for Clay, Duval, Nassau and St. Johns Counties. Concurrent with this effort the following documents were prepared:

- **Resilience and Vulnerability**
  - The North TPO examined the vulnerability of major roads in the region. Vulnerability is ranked from low to high. The vulnerability rating of relevant facilities is indicated on the List of Region-Wide Priority Projects. Supporting documentation is available at: <http://pathforward2045.com/wp-content/uploads/2019/08/Resiliency-Phase-II-Tech-Memo-1Finalv3.pdf>
  - Region-wide priority projects identified as at risk in this report are identified by vulnerability category.
- Low Vulnerability
- Moderate-Low Vulnerability
- Moderate High Vulnerability
- High Vulnerability
- **Regional System Safety Plan**
  - This plan was updated. It identifies high crash corridors, high crash intersections and corridors with a high incidence of bicycle and pedestrian crashes. High crash corridors are identified on the List of Region-Wide Priority Projects. Supporting documentation is available at: [https://northfloridatpo.com/uploads/Studies/FINAL\\_RSSP\\_NOV2019.pdf](https://northfloridatpo.com/uploads/Studies/FINAL_RSSP_NOV2019.pdf)
  - Region-wide priority projects on HIGH CRASH CORRIDORS are identified as such.
- **Congestion Management Process**
  - The Congestion Management Process was updated. Supporting documentation is available at: [https://northfloridatpo.com/uploads/Studies/performance/2019\\_NFTP\\_CMP.pdf](https://northfloridatpo.com/uploads/Studies/performance/2019_NFTP_CMP.pdf)

All documentation for the 2045 Long Range Transportation Plan is available at [www.pathforward2045.com](http://www.pathforward2045.com) and at <http://northfloridatpo.com/planning/lrtp>

## LIST OF PRIORITY PROJECTS PROCESS

### Develop List of Candidate Projects (*January*)

1. A list of candidate projects is developed from the following:
  - Projects in the previous year *List of Priority Projects* not funded through construction.
  - Local County/City submittals within the North Florida TPO area
  - Local Airport and Transit Authority submittals within the North Florida TPO area
  - Concurrency Management Process
  - Public Input
2. Project Ranking (*February*)
  - Unless otherwise indicated, projects were initially prioritized in Path Forward 2045, the North Florida TPO's Long Range Transportation Plan adopted November 14, 2019
  - TPO Staff works with local governments to develop a preliminary List of Priority Projects to submit to the Technical Advisory Committee (TAC), Citizens Advisory Committee (CAC) and Transportation Planning Organization (TPO) Board for review and approval at the March TAC, CAC and TPO Board Meetings.
  - Mass transit and aviation projects are prioritized by the submitting agencies and are forwarded to the North Florida TPO to include in the LOPP Document.
  - Adopting the List of Priority Projects (March)
  - Following approval by the North Florida TPO, the List of Priority Projects is submitted to FDOT for use in developing the Five-Year Tentative Work Program.

# 2022 ANNUAL LIST OF PRIORITY PROJECTS

## REGION-WIDE PRIORITY PROJECTS

REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
<b>PRIORITIES FUNDED IN THE CURRENT 5-YEAR WORK PROGRAM</b>				
	<b>CR 220</b> <i>Clay County</i>	Henley Rd to Knight Boxx Rd	Widen to 4-lanes	Construction FY 2024
	<b>First Coast Expressway</b> <i>Clay and St. Johns Counties</i>	Blanding Blvd to N of SR 16	New construction	Completion FY 2025
		N of SR 16 to E of CR 2209	New construction	Completion FY 2024
		E of CR 2209 to CR16A spur (includes bridge)	New construction	Construction FY 2022
		CR 16A spur to I-95	New construction	Construction FY 2023
	<b>SR 16/CR 208</b> <i>St. Johns County</i>	@ I-95	Interchange improvements	Construction FY 2021 W of Tombs Rd to E of CR 208N CST 2026
	<b>SR 202 J. Turner Butler Blvd</b> <i>Duval County</i>	@ San Pablo Rd	Modify interchange	Under Construction
	<b>SR 111 Edgewood Ave</b> <i>Duval County</i>	US 17 Main St to Cassat Ave	Context sensitive solutions	Construction FY19/20
	<b>SR 313</b> <i>St. Johns County</i>	SR 207 to Holmes Rd	New road construction	Construction FY 21/22
	<b>US 17</b> <i>Clay County</i>	@ Governors Creek Bridge	Sidewalk	Construction complete
	<b>SR 202 J. Turner Butler Blvd</b> <i>Duval County</i>	@ Kernan Blvd	Interchange Improvements	Construction FY 2020 \$1M SU 22/23 \$1.5 CMAQ 22/23
	<b>SR 10 Atlantic Blvd</b> <i>Duval County</i>	Silversmith Creek Bridge	Milling, resurfacing, railing and sidewalk construction <b>*Moderate-Low Vulnerability</b>	Construction FY 2026
	<b>US 17</b> <i>Clay County</i>	@ CR 220	Intersection improvement	Construction in FY 24 within the limits of US 17 from White Oak Lane to north of Eagle

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
				Harbor Parkway
	<b>US 17 Main St</b> <i>Duval County</i>	New Berlin Rd to Pecan Park Rd	Widen to 5-lanes with multi-use trail <b>*Moderate-Low Vulnerability</b>	\$2.8 M <b>PE 2023 (New Berlin to Katherine)</b> \$2.4M <b>PE 2023 (Katherine to Max Legget)</b>  <b>CST funds pending</b>
	<b>SR A1A Mayport Rd</b> <i>Duval County</i>	SR 10 Atlantic Blvd to Dutton Island Rd	Context sensitive improvements <b>**High Crash Corridor</b> <b>*Moderate-High Vulnerability</b>	\$1M SU 21/22 \$5.4M SU 25/26 <b>PE 2022</b> <b>CST funds pending</b>
UNFUNDED PRIORITIES				
1	<b>SR 312 Extension</b> <i>St. Johns County</i>	SR 207 to US 1	New road construction	
2	<b>SR 228 Normandy Blvd</b> <i>Duval County</i>	Equestrian Center to US 301	Widen to 4-lanes with bike lanes and sidewalks <b>*Moderate Vulnerability</b>	
3	<b>CR 220</b> <i>Clay County</i>	SR 21 to Henley Rd	Widen to 4-lanes <b>High Crash Intersection (CR220 &amp; Henley Rd)</b>	
4	<b>SR 200/SR A1A</b> <i>Nassau County</i>	I-95 to Amelia Island Pkwy	Intersection improvements <b>High Crash Corridor</b> <b>*Moderate-High Vulnerability</b>	
5	<b>SR 212 Beach Boulevard</b> <i>Duval County</i>	Parental Home Rd to I-295	Bicycle, pedestrian and intersection improvements <b>High Crash Corridor</b> <b>*Moderate-Low Vulnerability</b>	
6	<b>CR 2209</b> <i>St. Johns County</i>	SR 9B to SR 16	9B to Silverleaf Pkwy Widen to 6-lanes /Intersection Improvements; Silverleaf Pkwy to SR 16 Design 6 lane and Construct 4 lane	

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

REGION-WIDE PRIORITY PROJECTS				
Rank	Project	Limits	Description	Status
7	<b>SR 16</b> <i>Clay County</i>	Green Cove Springs City Limits to First Coast Expressway Interchange	Widen to 4-lanes <b>*Low Vulnerability</b>	
8	<b>US 17</b> <i>Nassau County</i>	Duval County Line to SR 200	Widen to 4-lanes/Intersection improvements	\$1.5m <b>PE 2023</b> <b>(South of William Burgess to SSR 200)</b> <b>ROW in 23/24</b>
9	<b>SR 115 Lem Turner Rd</b> <i>Duval/Nassau Counties</i>	I-295 to US 301	Widen to 4-lanes with multi-use trail/Intersection Improvements <b>*Moderate Low Vulnerability</b>	
10	<b>Race Track Rd</b> <i>St. Johns County</i>	Bartram Park Blvd to US 1	Widen to 4-lanes/Intersection improvements	
11	<b>Cheswick Oaks Ave</b> <i>Clay County</i>	Challenger Drive to end of 2-lane developer funded section	New 2-lane road	
12	<b>SR 104 Dunn Ave</b> <i>Duval County</i>	New Kings Road to I-295	Widen/intersection improvements <b>*Low Vulnerability</b>	
13	<b>US 1</b> <i>Duval County</i>	At Racetrack Rd	Intersection Improvements	
14	<b>SR A1A</b> <i>St. Johns County</i>	Mickler Road to Marsh Landing Pkwy	Widen to 4-lanes/Intersection Improvements	
15	<b>I-295</b> <i>Duval County</i>	At SR 13	Interchange improvements	
16	<b>SR 16</b> <i>St. Johns County</i>	International Golf Pkwy to Outlet Mall Entrance	Widen to 4 lanes	

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### REGION-WIDE PRIORITY PROJECTS

Rank	Project	Limits	Description	Status
17	<b>Atlantic Blvd/Third Street (SR A1A)</b> <i>Duval County</i>	Mayport Rd (SR A1A) to St. Johns County Line	Context Sensitive Improvements: Bicycle, Pedestrian and intersection upgrades <b>High Crash Corridor</b> <b>*Moderate-High Vulnerability</b>	
18	<b>SR 21 Blanding Blvd</b> <i>Clay/Duval Counties</i>	CR 220 to Collins Road	Intersection improvements <b>High Crash Corridor</b> <b>*Low Vulnerability</b>	
19	<b>CR 315</b> <i>Clay County</i>	Medinah Ln to First Coast Connector	Widen to 4 lanes	
20	<b>Southside Blvd</b> <i>Duval County</i>	Old Baymeadows Rd to Baymeadows Rd	Intersection Redesign	

*\* Vulnerability evaluated in the Resiliency & Vulnerability Study  
High Crash Corridors and Intersections identified in the Regional System Safety Plan*

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### AVIATION PRIORITY PROJECTS—JACKSONVILLE AVIATION AUTHORITY

Rank	Project
1	<p><b>JAX-Concourse B Replacement - \$233,000,000</b></p> <p>The Jacksonville International Airport (JAX) Concourse B Replacement includes design and construction of a six-gate concourse, associated ramp area, and the relocation of Taxiway V. The concourse will consist of up to three levels with approximately 165,000 total square feet and includes the development of holdrooms, aircraft gates, concession space, restrooms, and a connecting corridor with moving sidewalks.</p>
2	<p><b>JAX-Cargo Apron Expansion - \$2,500,000</b></p> <p>This project will expand the existing Air Cargo apron by adding 7000 square yards of concrete apron to the southern side of the existing apron. The existing air cargo apron is located north of runway 14/32 and south of the terminal structure. This project is necessary to accommodate increased air cargo operations and larger cargo aircraft.</p>
3	<p><b>JAX-Wetland Mitigation - \$13,500,000</b></p> <p>This project will be the removal and mitigation of jurisdictional wetlands deemed Hazardous Wildlife Habitat for JIA. The proposed area is 166.59 acres in size and lies within the AOA, directly northeast of RWY 8/26.</p>
4	<p><b>Cecil-Approach Road Utilities &amp; Roadway - \$20,000,000</b></p> <p>The Approach Road Utilities &amp; Roadway project supports the construction of a two-lane road and associated common use utilities within the boundary of Cecil Airport and Cecil Spaceport. The ultimate construction of the road will serve as the common use roadway link connecting the common use Spaceport Operations Area to other aerospace development and public use areas.</p>
5	<p><b>Cecil-Runway 18R/36L Rehabilitation - \$8,500,000</b></p> <p>This project will rehabilitate the portions of the asphalt on RWY 18R/36L. This project will include the design and construction of the Runway 18L/36R asphalt keel reconstruction. The project abuts the concrete section of Runway 18L and is 500' in length by 50' in width. The existing pavement consists of 4.5" of asphalt pavement over 9" of lime rock base. The anticipated new pavement section consists of 12" of compacted subgrade, 8" of lime rock base, and 9" of asphalt pavement.</p>
6	<p><b>Spaceport-Payload Prep Facility - \$2,000,000</b></p> <p>Payload processing is an integral part of Commercial Space Operations. Currently, a Payload preparation facility is not available at Cecil Spaceport and processing is completed through the modification of existing facilities to meet the needs of individual launch providers and specific payloads.</p>
7	<p><b>Spaceport-Rocket Motor Test Facility - \$1,000,000</b></p> <p>The design and construction of the Rocket Motor &amp; Vehicle Testing Facility will include the development of a concrete pad accompanied by a control room and propellant and oxidizer storage facility dimensioned according to a baseline rocket engine group determined by the Facility Requirements Evaluation. Required utilities will include electric, fiber and plumbed to eventually connect water for fire suppression. The facility will be designed taking into consideration propellant combinations, thrust levels and engine types as well as setback distances to comply with FAA Explosive Siting Criteria.</p>

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### MASS TRANSIT PRIORITIES—JACKSONVILLE TRANSPORTATION AUTHORITY

Rank	Project	Description	Justification
1	<b>Vehicle Acquisition</b>	Annual SU funding with \$2.5 toll credit matching	Replace new buses/rolling stock with CNG and EV buses plus related equipment
2	<b>Para-Transit (CTC)</b>	Purchase para-transit equipment	Required for ADA compliance
3	<b>U<sup>2</sup>C Agile Program</b>	Various U <sup>2</sup> C routes throughout the Jacksonville area	Autonomous transit routes at various locations around Jacksonville
4	<b>U<sup>2</sup>C Extension 4</b>	The third phase of the U <sup>2</sup> C program	The fourth at-grade extension of the U <sup>2</sup> C program
5	<b>Ferry</b>	Additional Ferry Boat	An additional boat is needed to increase capacity at the Mayport Ferry crossing
6	<b>Commuter Rail Project Development</b>	Promote transit-oriented development, station area planning, and funding for Commuter Rail service on the Southeast Corridor	Project Development and Engineering (PD&E) is funded through the LOGT, but there is no funding included for design
7	<b>ITS/Corridor Development/Service Enhancement</b>	Develop/implement a regional plan focused on transit and implement communications based elements	Capacity constraints on major corridors suggest implementation of ITS to enhance mobility
8	<b>JRTC Amtrak Station Relocation</b>	Relocate Amtrak station from Clifford Lane to Prime Osborn Convention Center site	Immediate opportunity to restore intercity passenger service to Downtown Jacksonville
9	<b>Regional Passenger and Operations Enhancements</b>	Plan, design, and construct new passenger and operations facilities	Provide new facilities to enhance passenger experience and increase efficiency of operations
10	<b>MyJTA Mobility Application</b>	Mobile application that will enable multi-modal trip planning and ticketing, real time arrival/departure information, vehicle crowding information, and customer notifications of detours and trip interruptions.	Provides a single Mobility as a Service mobile application to meet both Fixed Route and On-Demand regional transportation needs for Northeast Florida's residents.

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### MASS TRANSIT PRIORITIES—ST. JOHNS COUNTY/SUNSHINE BUS

Rank	Project	Description	Justification
1	<b>Operating Assistance 5307</b>	Funding for operations and administration	Expand transit system to support additional revenue miles and passengers
2	<b>Preventative Maintenance Capitalized Operating Expense</b>	Funding for preventative maintenance on revenue vehicles	Keep vehicles in service and facilitate continued operations
3	<b>Operating Assistance CTD/Trip Equipment Grant</b>	Continuing Bus Operations	Match for FTA 5307 and support for current and expanded service
4	<b>Operating Assistance Block Grant Funds</b>	Continuing Bus Operations	Support current service and expand service
5	<b>Operating and Capital Assistance FTA 5310</b>	Continuing Bus Operations	Support current service and expand service
6	<b>Operating and Capital Assistance FTA 5311</b>	Continuing Bus Operations	Support current service and expand service
7	<b>Capital Assistance STP Flex</b>	Vehicle Acquisition	Vehicles for route expansion, and paratransit vehicle replacements
8	<b>Rolling Stock</b>	Vehicle Acquisition	Paratransit vehicle replacement
9	<b>System Planning</b>	Plan updates	Update plans as a prerequisite to receiving state and federal funds
10	<b>Shelter Installation</b>	Bus shelters	System improvements, permanent shelters
11	<b>Security Maintenance</b>	Maintain existing security equipment	Maintain and replace existing security equipment at Transit Facility and on Buses
12	<b>Equipment</b>	Shop equipment	Required to meet maintenance schedules
13	<b>Facility Maintenance</b>	Repair/Replace Facility & Equipment	Maintain transit facility and grounds

These projects have been selected from the agency Transit Development Plan and prioritized by St. Johns County Commission//Sunshine Bus.

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### PORT PRIORITIES—JAXPORT

Project
Harbor Deepening
Blount Island Marine Terminal (BIMT) Berth Extensions for Roll On Roll Off (RO/RO)
Blount Island Marine Terminal (BIMT) redevelopment for Auto processing expansion
Dredge Material Management Area (DMMA) expansion/capacity creation
Berth reconstruction at upgrades at BIMT and Talleyrand Marine Terminal (TMT)
ITS improvements for cargo movements at JAXPORT terminals
Terminal expansion near TMT, BIMT and Dame Point Marine Terminal (DPMT)
RO/RO expansion at DPMT

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### PORT PRIORITIES—PORT OF FERNANDINA

#### Project

Harbor Deepening and Navigation Study – of the federal access channel to the Port of Fernandina. Requested by the USACE in its 2022 budget request.

M-95 Marine Highway Study – analysis of the need and requirements of a container barge service connecting ports in the Southeast and Mid-Atlantic coastal range to remove trucks from local roads and highways within the NFTPO region. The Port of Fernandina has been designated an American Marine Highway Port by the USDOT / Maritime Administration (MARAD) and is actively seeking to institute a regular coast-wise container barge service as a green alternative to trucks on Interstate 95. Cooperation and support of other regional ports is required.

Study of Potential Ingress/Egress Improvements at the Port of Fernandina – an analysis of necessary improvements to enhance fluidity of truck movements in and out of the Port and decrease impact on local streets.

Traffic Study and Truck Survey – update current studies of the capacity of State Road 200 to support additional growth of the Port.

Design & Construction of Office Space at the Port for the US Customs & Border Patrol and the Port Authority – required by federal statute. Needs to be completed and online by end of 2023.

Land Acquisition & Construction of Additional Warehouse Space Adjacent and Contiguous to the Port - necessary to accommodate the growth of the Port's existing break-bulk business.

Design & Construction of a Tide Management and Flood Control System – necessary to prevent loss of existing terminal acreage that currently floods during high tides.

Rail Freight Mobility Study – Analysis of existing rail infrastructure from the Port of Fernandina to the CSX interchange in Yulee and to the CSX main yard in Jacksonville to increase capacity.

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS

The following table includes multi-use Trail and School Safety Walks projects submitted for funding in FY 2025/2026.

MULTI-USE TRAILS				
Rank	Project Name	Limits	Estimated Cost	Status
CONSTRUCTION FUNDED				
	<b>Amelia Island Parkway Multi-Use Trail, Phase 2, Nassau County</b>	Bailey Road to 14 <sup>th</sup> St	\$876,107	Construction FY 23/24
		SR A1A/8 <sup>th</sup> Street to Bailey Road	\$166,500 PE	PE FY 19/20
		SR A1A/Fletcher Avenue to Via del Rey	\$756,196	FY 22/23
		Via del Rey to 14 <sup>th</sup> St	\$1,167,327	FY 23/24
	<b>Black Creek Trail Extension across US 17 Bridge (446154)</b> <i>Clay County</i>	US17 from Ball Rd to Black Creek Trail	\$3.2 M	PE FY 22/23 Construction FY 25/26
UNFUNDED PRIORITIES				
1	<b>14<sup>th</sup> Street Trail</b> <i>Nassau County</i>	Dee Dee Boat Ramp to Sadler Rd, down Sadler Rd to Will Hardee and down Will Hardee extending to the Simmons Rd Trail	\$8.5 M	
2	<b>East Coast Greenway/Core to Coast Trail</b> <i>Duval County</i>	SR A1A and Wonderwood Drive to Fort Caroline National Monument	Estimate needed	
3	<b>Vilano Trail (447736)</b> <i>St. Johns County</i>	San Marco Avenue to Duval County Line	\$61.2M	PD&E FY 22/23 \$600k PE FY 23/24 \$600k (San Marco to N. of Park Entrance)

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### TRANSPORTATION ALTERNATIVES PROGRAM (TAP) PROJECTS

SCHOOL SAFETY SIDEWALKS			
Rank	Project Name	Limits	Cost Estimate
<b>CONSTRUCTION FUNDED</b>			
	<b>Yulee Elementary School</b> <i>Nassau County</i>	Sidewalks on Felmor Road to provide access to Yulee Elementary School.	PE FY 24/25 \$113k (Safe Streets to School)  CST FY 26/27 \$622k (Safe Streets to School)
<b>UNFUNDED PRIORITIES</b>			
1	<b>Valley Ridge Academy</b> <i>St. Johns County</i>	Palm Valley Road from Walden Chase neighborhood to Valley Ridge Drive	Estimate needed
2	<b>San Jose Elementary School</b> <i>Duval County</i>	Construct new sidewalk to fill gaps	Estimate needed
3	<b>Doctor's Inlet Elementary</b> <i>Clay County</i>	Old Jennings Rd from College Dr. to Knight Boxx Rd.	Estimate Needed

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### SUNTRAILS PRIORITIES

SunTrails is a competitive program. Projects compete statewide, must be on the SunTrails map, must have a detailed study with segment by segment cost estimates. Applications will be submitted when projects meet these criteria. [www.floridasuntrail.com](http://www.floridasuntrail.com)

Project Name	Project Description/Project Limits	Estimated Cost
St. Johns River to Sea Loop	West of I-95 to City of St. Augustine to Flagler County Line	This project is specifically reference in State legislation and does not compete for funding with the projects listed below.
Timucuan Trail <i>Duval County</i>	Fort George River to Hanna Park	Study/Estimate needed
North Nassau Trail <i>Nassau County</i>	Amelia Island Trail North to Georgia State Line via US 17	Study/Estimate Needed
Vilano Trail <i>St. Johns County</i>	San Marco Avenue to Duval County Line	Estimates are available for each segment of this trail
Northeast Florida Greenway Trails <i>Clay County</i>	Duval County Line at Veterans Park to Jennings Forest Trail Head at Live Oak Lane	Study/Estimate Needed

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

### TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES

The Transportation Regional Incentive Program (TRIP) is funded with Documentary Stamp funds. The North Florida TPO is the TRIP Agency for Baker, Clay, Duval, Nassau and St. Johns Counties. This list is approved by the TRIP Agency, which includes the North Florida TPO Board and one member of the Baker and Putnam County Commissions. TRIP eligible projects include all funded projects included in the Region-Wide Priority list on pages 6 and 7 in addition to the projects listed below. These projects are not ranked.

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) PROJECT PRIORITIES			
County	Project	Limits	Description
<i>Baker</i>	Midpoint Parkway/Truck By-Pass, Phase 1		Construct new 2-lane road
<i>Putnam</i>	US 17	Volusia County Line to Pomona Park/Feagle Avenue	Widen to 4-lanes
<i>St. Johns County</i>	SR 312 Extension	SR 207 to US 1	New road construction
<i>Duval County</i>	SR 228 Normandy Blvd	Equestrian Center to US 301	Widen to 4-lanes with bike lanes and sidewalks <i>*Moderate Vulnerability</i>
<i>Clay County</i>	CR 220	SR 21 to Henley Rd	Widen to 4-lanes <i>High Crash Intersection (CR220 &amp; Henley Rd)</i>
<i>Nassau County</i>	SR 200/SR A1A	I-95 to Amelia Island Pkwy	Intersection improvements <i>High Crash Corridor *Moderate-High Vulnerability</i>
<i>Duval County</i>	SR 212 Beach Boulevard	Parental Home Rd to I-295	Bicycle, pedestrian and intersection improvements <i>High Crash Corridor *Moderate-Low Vulnerability</i>
<i>St. Johns County</i>	CR 2209	SR 9B to SR 16	9B to Silverleaf Pkwy Widen to 6-lanes /Intersection Improvements; Silverleaf Pkwy to SR 16 Design 6 lane and Construct 4 lane
<i>Clay County</i>	SR 16	Green Cove Springs City Limits to First Coast Expressway Interchange	Widen to 4-lanes <i>*Low Vulnerability</i>

## 2022 ANNUAL LIST OF PRIORITY PROJECTS

<i>Nassau County</i>	US 17	Duval County Line to SR 200	Widen to 4-lanes/Intersection improvements
<i>Duval/Nassau</i>	SR 115 Lem Turner Rd	I-295 to US 301	Widen to 4-lanes with multi-use trail/Intersection Improvements <b>*Moderate Low Vulnerability</b>
<i>St. Johns County</i>	Race Track Rd	Bartram Park Blvd to US 1	Widen to 4-lanes/Intersection improvements

# **APPENDIX VI**

## **Public Comments**

# **TIP Comments**

(From April thru May 31, 2023)

## **TAC Comments**

April 5, 2023 TAC Meeting- 38 attendees

Elizabeth De Jesus presented the FY 2023/24 through FY 2027/28 draft project sections for the Transportation Improvement Program (TIP). Approval of the complete draft will be requested at the June meeting.

Ms. De Jesus asked for questions.

- Jeff Sheffield informed the group this year there will be a virtual meeting for each county instead of in-person presentations. The TIP public meeting will be virtual as well. Staff will make every effort to fulfill requests for in-person presentations.

May 3, 2023 TAC Meeting – 35 attendees

Elizabeth De Jesus presented the draft FY 2023/24 through FY 2027/28 Transportation Improvement Program (TIP). Approval will be requested at the June meeting.

Ms. De Jesus asked for questions. There were no questions at this time.

## **CAC Comments**

April 5, 2023 CAC Meeting- 31 attendees

Elizabeth De Jesus presented the FY 2023/24 through FY 2027/28 draft project sections for the Transportation Improvement Program (TIP). Approval of the complete draft will be requested at the June meeting. Ms. De Jesus asked for questions.

Jeff Sheffield informed the group this year there will be a virtual meeting for each county instead of in-person presentations. The TIP public meeting will be virtual as well. Staff will make every effort to fulfill requests for in-person presentations.

Lisa McGlynn commented this is an excellent idea.

Doug Conkey asked if this is something the counties will put on their website for the public to stream. Mr. Sheffield responded it will not be streamed by the counties. We will send the counties the notice along with the link to the meeting to post on their website.

Lisa McGlynn asked if the plan is to provide the counties the notice and have them publish it on their website. Mr. Sheffield responded that is the expectation.

Lisa McGlynn asked if the notice will be posted in another forum. Mr. Sheffield responded it will be posted on the TPO's social media outlets.

Doug Conkey asked if the presentation will be archived.

Mr. Sheffield responded the meeting will be recorded, and the links will be provided on our website by county.

Jim Green asked if the virtual meetings would be one-way or two-way. Mr. Green wanted to know if there will be an opportunity for public comment. Mr. Sheffield responded the meetings will be open for public comment. FDOT and county staff will be participating to answer questions.

Jim Green asked if TPO staff would like comments before the presentations. Mr. Sheffield responded we welcome comments any time throughout this process.

Thomas Martin commented the Blanding Blvd. project is in the LOPP with construction programmed for 2025. Mr. Martin commented that he does not see the project in the TIP. Mr. Sheffield commented this is the point of this exercise to address these types of issues and get them resolved. Staff will address this issue.

Lisa McGlynn asked if there is a summary page showing the total dollar amount for each county. Mr. Sheffield responded the information presented today is to share the projects by county. As we continue through this process, the front sections that show funding by source, county, project type, etc. will be inserted into the document.

Lisa McGlynn asked when the front sections will be available. Ms. De Jesus responded the information will be available before the June 7 meeting.

David Duckworth asked the best way to get detailed information about a specific project. Mr. Duckworth asked if there is a central database where all the projects are located. Mr. Sheffield responded the projects are divided into sections by county and/or agency. Once this process is complete, the information is put on FDOT's website in an interactive database.

May 3, 2023 CAC meeting- 30 attendees

Elizabeth De Jesus presented the draft FY 2023/24 through FY 2027/28 Transportation Improvement Program (TIP). Approval will be requested at the June meeting.

Ms. De Jesus asked for questions.

- Jim Green asked for a future presentation on the EV charging station projects.

- Jim Green commented the JTB from I-95 to US-1 and US-1 from JTB to Mustang Road freight access project is not in the LRTP. Ms. De Jesus responded she will look into it.
- Austin Chapman commented the JTB resurfacing project from Belfort Road to A-1-A at one time included a diverging diamond interchange at Belfort Road. Mr. Chapman asked if this will be included in the resurfacing project.

Mr. Sheffield responded it will not be included in the resurfacing project. FDOT has gone back to a true resurfacing project.

**Questions ask at MAY 3, 2023 CAC Meeting – Responses provided by Staff / FDOT**

- Jim Hill asked for further details of what the Mandarin Pedestrian Safety Improvements will entail.

***JTA Response – May 4, 2023***

***The Mandarin Sidewalk and Safety Improvements project includes the repair of sidewalks along Mandarin Road from Orange Picker Road to Red Cypress Drive, and construction of a new sidewalk along Mandarin Road from Red Cypress Road to Walter Jones Historic Park.***

- Doug Conkey commented in the TIP there was a hangar dropped at Cecil Field. Mr. Conkey wanted to know if it was a spec hangar or for a particular purpose, what side of the airport was it on, whose hangar was it (Boeing, etc.).

***FDOT Response – May 16, 2023***

***Hangar 1025 was a proposed spec hangar development. It was proposed for construction in the northeast quadrant of the airfield, south of 103<sup>rd</sup> Street and to the north of the current spaceport. To FDOT's knowledge, the hangar was not intended for Boeing's use. It was proposed on the same side of the airfield as the ongoing Boeing development.***

**TPO Board Comments**

April 13, 2023 TPO Board meeting- 33 attendees

Elizabeth De Jesus presented the FY 2023/24 through FY 2027/28 draft project sections for the Transportation Improvement Program (TIP). Approval of the complete draft will be requested at the June meeting.

Ms. De Jesus asked for questions.

- Jeff Sheffield informed the group this year there will be a virtual meeting for each county instead of in-person presentations. The TIP public meeting will be virtual as well. Staff will make every effort to fulfill requests for in-person presentations.

May 11, 2023 TPO Board meeting- 34 attendees

Elizabeth De Jesus presented the draft FY 2023/24 through FY 2027/28 Transportation Improvement Program (TIP). Approval will be requested at the June meeting.

Ms. De Jesus asked for questions.

## **Public Meetings**

### **May 4 – St Johns County Virtual TIP PowerPoint Presentation – 27 participants**

Elizabeth De Jesus delivered a St Johns county-specific TIP PowerPoint presentation. The following questions were ask:

Question -Is the City of St Augustine Downtown Circulator project (2164533) starting before the Smart St Augustine Connected Vehicle System (ITS system project) (4486533)? (PP slides 11 and 18).

Jeff Sheffield explained that the vision is to prepare all signal systems for automated vehicles in the future and the ability to connect vehicle-to-vehicle technology to the network. The goal is to provide traffic information to drivers thru this connected system. The ITS project is a value-add to the Circulator project but is not part of it. To answer the question there is not a timing issue between these two projects. The Circulator project will occur in its own schedule. The ITS project is part of a larger scale deployment for the St Augustine Smart City initiative that received the 16 Million federal grant. FDOT assigned a generic name to this project but it will include flood sensors, the connected vehicle system, real-time parking management system (expanding the current system in place), incorporate real-time truck delivery movements, and incorporate real-time bridge raising. It is a fully integrated system within St Augustine. The full scope of the Smart St Augustine project is available in the TPO webpage.

Charles Pappas commented thru the chat that the Circulator project contracts are in the process of been finalized by Reuben Franklin, hopefully, by the end of this year.

Question – Are there any non-FDOT projects?

Lead agencies for projects in this draft TIP include FDOT, counties and or Cities.

Question – Clint-NFBC (rcurig2@gmail.com) asked about resurfacing projects near the Shands Bridge. Would resurfacing projects in SR 13 (North and South) and SR 16A include improved bike lanes? Project # 2102238 and 2102216 (PP slides 19 and 21). There is a safety issue in that area. The future Shands Bridge will have a 12-foot wide pedestrian pathway. Improving that area would potentially allow a larger St Johns loop around that area.

Achaia Brown (FDOT) will provide an answer by email.

Question – Marcus asked between the I-95 projects and the First Coast Expressway projects, how much are we expending on highway construction?

Elizabeth explain a way to find out the total cost of a specific project is to find the project in the TIP draft list and look for the line “Total Project Cost”. That total would include funding expended for that project in previous years.

Jeff Sheffield added that if he is looking for an overall funding amount, when this draft is completed there will be summary tables in the front of the document that will provide a glimpse to all of the funding happening in the region as it related to FDOT Work Program.

Question –Glen (fosterdave@hotmail.com) asked if there are new pedestrian crosswalks in all these road improvement projects.

Achaia Brown (FDOT) – Not always.

Elizabeth – It depends on the needs in the specific location.

Jeff Sheffield – It depends on the roadway classification because in FDOT’s Work Program there are many interstate projects that will not qualify and / or need those. It depends on the roadway classification and its function. Therefore, it would be a deeper dive to a specific project if you were wondering where and what might include pedestrian crossings.

Elizabeth asked, are you thinking of a specific location?

Glen answered he is interested he would like to find out more information on A1A. He indicated they promised pedestrian crosswalks in his area, A1A North. Project 4477361 is one of the areas he would like more information on.

Elizabeth responded information would be send to him via email.

## **May 8 – Clay County Virtual TIP PowerPoint Presentation- 28 Participants**

Richard commented that the map for project 4475272 (Slide 13)– US 17 From CR 315 to Haven Ave (CR 209) is incorrect. The CR 209 (Russell Rd) this project refer to is just south of the Black Creek bridge. The CR 315 location is correct.

Elizabeth indicated the map would be corrected.

A commissioner from Clay County ask why there are so many contracts to resurface US 17 (SR 15)? The projects cover a segment that is around 10 miles long and there are four different projects to do the work in a period of 3 years. The projects in the presentation were:

2082283 - US 17 from Doctors Inlet Bridge to Wells Rd - 2026

2082025- US 17 from Oak Street to Black Creek – 2025

2081773- US 17 from the Putnam county line to Sweat Road - 2025

4433021- US 17 from Water Oak Lane to Eagle Harbor Parkway – 2024

Elizabeth Commented it has something to do with the funding source since is a continuous road. In addition, FDOT coordinate all projects so there is flow of traffic thru the construction.

Jeff Sheffield responded that It have to do with funding source, magnitude of a project, etc. Historically resurfacing projects significantly expanded their scope to include intersection improvements and other elements to the point in which it caused delay. Currently FDOT made a real effort on resurfacing projects to make them just that. Other types of projects, intersection improvements, road widening, etc. are then in separate projects. Even within the limits of the same area of a roadway to the best of their ability FDOT still try to time the projects. A lot of these road segments are just created in segments and sometimes they do not lining up and it tends to be due to order of magnitude and/ or cost. The ability to line them all up given total cost for that entire limit probably would cause additional delays. So there is no one answer there but certainly, FDOT makes their best effort.

The Clay County Commissioner stated that CR 220 and US 17 has been characterized as a wagon trail due to the ruts that are in its surface right now. We get water pulling, hydroplaning. It is a very serious safety hazard.

Jeff Sheffield responded that that is the purpose of today presentation to be able to note any comments so that we can convey them to FDOT as they move forward. These projects are not all set to happen next year so the ability to share concerns gives FDOT the opportunity to attempt to address some of those concerns.

Mike Seller from Clay County asked about the resurfacing project 2082005 "SR 16 from SR 21 to US 17.

Elizabeth responded preliminary engineering for that project is scheduled for 2023-24 (\$2.3 million) and construction for 2025-26 (\$18.4 Million)

Mike Seller stated that is from SR 21 all the way to Camp Blanding East. I assumed our request to make Highway 16 (SR 16) four lanes from State Road 23 (First Coast Expressway East) to US 17 certainly not only is it not in the work program but it looks like it's been pushed aside based on maybe not needing to go to four lanes because of this resurfacing project. They are going to resurface and then expand the road soon after.

Jeff stated he did not have an answer as far as the widening. He have not seen it in the work program either. He stated that the construction funding is a big number for resurfacing as well as the preliminary engineering funding. He is not sure if the PE funding would also include the future, four-lane. He stated staff can get some clarity. He asked Mr. Seller to drop his email in the chat and /or formalize his comment on the website for the record.

Elizabeth stated the project is 13.4 miles of resurfacing.

Jeff Sheffield responded it means the amount is 100 percent a resurfacing project and probably does not contemplate anything else.

Victoria (FDOT) stated that she have not seen anything other than resurfacing in this Project. She stated she can research further but all she have seen so far is resurfacing.

Mike Seller stated he understand that and that it is quite a long ways for their resurfacing project. He stated he is not surprised by the dollar amount but his concern was that they have voiced their concerns about the need for four lanes especially coming off State Road 23 (First Coast Expressway) moving eastbound towards Green Cove. Within 2-3 years, we will have thousands of homes being built. Just between Saratoga Springs and what is Governor's Park, on both sides there is ten thousand homes just in those two developments both of them dumping out onto SR 16 trying to get to First Coast Expressway. It does not seemed like a great idea to get people to the First Coast Expressway in two lanes. He is concern the plan is to resurface SR 16 when the plan should be to make it wider.

Lynn from Keystone Heights asked about Keystone Heights airport projects. She stated that a couple of months ago the airport re-prioritized their projects and she is wondering if the information is included in this TIP draft.

Kyle Kaufman from FDOT told Lynn she was referring to the meeting they had a few weeks ago. He stated what is included in this TIP draft is a snapshot from last year's development cycle. What the TPO is presenting today would have been based on the Meetings we had a year ago and all the incorporated changes so we are running about nine months ahead of the TPO. This means when we met with you two weeks ago it will be reflected in next year's update. It takes FDOT about nine months to put together the work program, submit it to the TPO, and then allow the TPO to go around and do all the TIP presentations. So the short answer is no, this TIP draft does not include all of the requests to make changes and funding moves that were submitted last month.

Chris Cushman from Clay County wanted to know the status of the Clay-Duval Trail project.

Elizabeth indicated that the Clay-Duval Trail is a priority of Clay county in both TAP and Suntrail. She will check the status of the project and send the information to Mr. Cushman via email.

Jeff Holstein ask about a project that is coming next year to SR 21 at the intersection with Wells Road southbound. He indicated he was not able to login earlier to the presentation and was wondering if that was included in the presentation.

Elizabeth invited Mr. Holstein to visit the TPO webpage were the recording of the presentation as well as other TIP materials would be posted. Elizabeth indicated there is a project included under area-wide projects that touches Wells Rd.

### **May 9 – Nassau County Virtual TIP PowerPoint Presentation- 9 Participants**

Robert Companion asked about project # 2107115 - SR A1A (SR 200) from O'Neill Scott Rd to Amelia River. He commented this project is schedule for construction in 2026. He indicated the current conditions at that location its asphalt top layers FC-5 a friction course that allows drainage to come off the road quickly. The FC-5 is breaking down pretty bad. One of his commissioners had to replace two windshields along that Roadway. He is not sure if it is strictly from the road breaking down but the Commissioner believes It's from the FC-5 aggregate coming up and hitting his windshield. He would like to request if there is an opportunity to advance this project. Waiting 2 years for this project may be too much since is rapidly disintegrating.

Elizabeth stated his comments would be share with FDOT so a conversation can be initiated. Preliminary engineering for this project is schedule for 2023-24, so he is right on time to start a conversation with FDOT.

Robert Companion stated there is also a resurfacing project at US 17 From Lippizan Court to the Georgia State Line (2106733). Construction for that project is scheduled for 2024-25. He stated he would drive to look at the pavement conditions of that location

and if they are better find out with FDOT if there is an opportunity to swap the funding to advance the SR A1A project.

Dave Kaufman asked if there is more background information on the Kingsley Creek / Intercoastal Swing Span Bridge project # 452126. Is this a maintenance project, are they adding more tracks? What they are doing there?

Elizabeth answered it is a Rail Capacity Project. She would find more information on the project and share it him.

### **May 11 – Duval County Virtual TIP PowerPoint Presentation- 20 Participants**

Lee Durban (COJ) asked about project 4488251- Heckscher Dr over Browns Creek Bridge. He wanted to make sure the TPO is aware that the Core to Coast Loop is planning to go thru there and if FDOT it is planning to rebuilt the bridge, it would be a good idea to accommodate the extra width that would be needed for that shared use path.

Elizabeth asked Lee if he has the timeline for the Core to Coast Loop project.

Lee Durban indicated it is a long-term project. If they widen that bridge, they are not going to rebuild that bridge again for probably 50 years.

Elizabeth indicated this is the perfect opportunity to provide input.

Matt Fall (COJ) commented that in the PD&E FDOT is looking into a 10-foot shared use path across the Browns Creek Bridge. He stated that if FDOT receive enough input from us saying this is a good idea maybe they will include it in the final plans.

Michael Boylan asked about the resurfacing project in San Jose Blvd. He wanted to know if the project # 4454261 - San Jose Blvd from I-295 to Sunbeam Rd, includes a turn lane to access the Buckman Bridge coming from the North.

Jim Knight (FDOT) responded the project includes the upgrade for the Interchange; it is embedded in the resurfacing project.

Peter Bornstein asked about project # 4524051, I-10 Electric Vehicle Charging Gap Phase 8. He stated he noticed in the TIP document there were about \$4 Million dedicated to a truck parking and EV Hub mostly funded with CARB, which is Intended for carbon reduction. He asked if that is still part of the plan.

Jim Knight (FDOT) responded the truck parking is eligible for CARB funds

Peter Borstein commented he is not able to connect truck parking with carbon reduction. He asked Jim Knight if he could explain.

Jim Knight responded the Federal Highway Administration said it could be done. That is my understanding of the program to the best of my knowledge. He asked Peter Borstein to send him his contact information to have somebody who is an expert on the subject contact him.

Peter Borstein commented he would like to see this funds used for more pedestrian and bicycle friendly uses. He indicated he know we have many big plans on how we might reduce carbon but a lot of them seem a little few far-fetched, futuristic and unproven. He knows that walking and biking uses very little carbon so he would like to see those dollars intelligently connected to solutions that are evident today instead of truck parking.

Jeff Sheffield stated he will be able to connect the two. The project is truck parking but affiliated with the truck parking is also electric truck parking facilities for electric plug-in so the conversion away from carbon burning trucks to Electric and that's what makes it ultimately eligible for the carbon reduction funds. That is the connection.

Peter Borstein asked how many electric trucks are on our Interstate right now.

Jeff Sheffield stated the federal government is sending 200 million dollars to the state for electric vehicles at the moment and we have two to four percent of our entire State's fleet is electric vehicles so it is transitioning to a model in the carbon reduction space. The trucks and electric parking is just as eligible as EV charging stations or anything else for the consumer. It is the same connection.

Peter Borstein asked if there are any electric trucks.

Jeff Sheffield responded absolutely. Right now there are container trucks running the interstates that are electric.

Stephen Tocknell asked if those are the kinds of trucks that would use a facility like this or are they like delivery trucks.

Jeff Sheffield responded no it is semi-trucks running the interstates which is exactly who would use this facility. In addition, when you consider the fact that many of these are park overnight and burn carbon all night long running their generators. The electric components of these truck stops now will enable them to plug in and reduce that all-night burning while they are sleeping in their cabs. This is something that is already happening in the country just as individual consumers are converting to electric vehicles on their personal use.

Stephen Tocknell asked how much of this Carbon money is being spent on the projects

that Peter was talking about.

Jeff Sheffield responded he did not have the amounts in front of him; however, this is a new program. This is year one where all the states are allocating Carbon Reduction funds. In the first round of Carbon Reduction and Protect funds (resiliency), states in the country submitted not that many new projects due to the tight timelines. In many cases, year one, regardless of State we're allocating those funds to eligible projects that FDOT already had within their work programs, i.e. truck parking facilities, drainage and other types improvements. In the protect and resiliency space it will trend differently now that there's time, but that first round last year, benefit of the doubt, frankly, to every state in the country to utilize the funds to the best of their ability within existing projects that they already had.

Stephen Tocknell asked what about CMAC that has been around for a while through projects like this.

Jeff Sheffield answered historically we have been funding sidewalks, intersection operational projects, technology projects, fleet conversions to compressed natural gas, biofuel and the likes all using CMAC funds.

Stephen Tocknell asked how much of the CMAC money has been going for projects like Peter is endorsing.

Jeff Sheffield responded again you would have to go back and we would have to aggregate the amount of dollars. Again, you are only talking about \$1 to \$1.5 million dollars a year in CMAC funds coming to this region. Therefore, it is not a big number to begin with but that number can certainly be aggregated if we go back in history.

Stephen Tocknell asked what is the yield from the carbon reduction budget.

Jeff Sheffield responded about four million a year for this region.

Stephen Tocknell stated so it is going from about \$2 million to about \$6 million.

Jeff Sheffield responded no its going from about \$1 to \$1.5 million to about \$4.5 to \$5 million would be a better number.

Stephen Tocknell stated okay \$1M to \$5M. It is a big increase though I mean percentage-wise.

Jeff Sheffield answered on a percentage basis not on a raw number. That is still not huge dollars.

An attendee asked if there would be a recording of the presentation and if the comments we are requesting in the survey are for the LRTP or the TIP.

Elizabeth explained that the recording would be uploaded to the TIP page along with recordings of the other counties presentations within 2 days. Elizabeth explained that the comments we are asking are limited to the draft TIP document.

Another attendee asked about projects that did not make it into the draft TIP, specifically an unfunded low priority section of Moncrief Road, which was right next to the S Line. He was disappointed that the project was not listed in the TIP draft and asked how he could advocate for this project.

Elizabeth explain that FDOT work with the priorities of each county.

Jim Knight (FDOT) stated that maintenance projects are programmed directly by FDOT, safety projects also get programmed directly by FDOT. All other projects are programmed based on the priorities submitted by the local government to the North Florida TPO and then the TPO creates a master list of priority projects. The key is if you do not see a project and it is not maintenance nor safety related then you need to talk to your local government to get them to prioritize it high.

The attendee asked who he need to contact in Duval County

Jim Knight replied Lorie Santana with the City of Jacksonville.

### **May 17- Regional TIP Virtual Public Meeting- 27 participants**

Noelle Comeaux (NEFRC) asked if project # 4470641 – SR A1A from Marineland to Fort Matanzas Inlet would connect to existing facilities north of Marineland.

Achaia Brown (FDOT) offered to find information on how the project connect to existing facilities.

Elizabeth stated there is a lot of activity happening in A1A and the goal is to have it connected but it depends where the gaps are. We can check if it will connect north of Marineland to any existing facilities.

Eddie Parsons asked information about the flood sensors project. She wanted to know what they are and what they do.

Jeff Sheffield responded this is a pilot project that is a spin-off of an effort we did in Neptune Beach. These are essentially sensors that are placed in manholes and drainage infrastructure within a municipality that both provide real-time flood level information but also provide over a long-term history an overall assessment of the entire

municipalities' storm water infrastructure system to better help them prioritize where to make investments. FDOT has seen enough value in the project we did in Neptune Beach that they have provided federal funding to us to deploy on a larger scale. Therefore, our decision as the TPO was to deploy this within all four counties that we represent so we are working with each County individually to identify one or two primary locations that have significant flood conditions. The goal of this would be to basically do the same level of pilot that we did in Neptune Beach provide the data and information back to the counties and allow them to assess whether or not this technology helped them do their job better. Whether that is funding prioritizing the projects or anything of that nature. Because the third level from the FDOT's perspective would be if this is a successful pilot on a regional scale then the idea would be that this there's elements of this opportunity to scale across the State of Florida. So that is it's an iterative process we're in the middle of.

Jonathan Cagle asked through the chat where he could find the presentation slides.

Elizabeth replied that today's recording would be posted in our webpage, which is [www.NorthFloridaTPO](http://www.NorthFloridaTPO). Once in the webpage click on the planning tab, select TIP from the drop down menu and it will take you to the TIP page. Once in the TIP page you will found all the information you need including the recording of today's presentation, county specific presentations as well as, the TIP draft and a comments form.

**Subject:** Question on TIP aviation project

Good Morning Achaia!

We received the TIP Comment below. Can you verify what is the correct year for project # 4331263?

Project # 4331263 - "Design & Construct Hangars" is incorrectly shown for an award in 2028. The schedule of awards provided in the Florida Aviation Database has this project scheduled for an award in FY 2026. The 2026 award of \$2 million for this project in FY 2026 has been concurred upon in the most planning sessions FDOT and FAA.

Thank You!

Elizabeth

**Subject:** RE: Question on TIP aviation project

Good Afternoon Elizabeth,

Achaia is currently out of the office at the moment, but I will bring your question to her attention as soon as she returns. In the meantime, I pulled up the project #433126-2 "NE FL REG APT DESIGN AND CONSTRUCT HANGER & TAXILANES" that is showing the total of \$2 million in FY 2026 with the combined fundings of DDR, DPTO, & LF. I am also seeing the mentioned project #433126-3 "NORTHEAST FL REG APT DESIGN & CONSTRUCT HANGERS" with a total of \$4 million dollars for FY 2028 and a grand total of \$8,372,350 (including funds from <2024 & 2026). The newest TIP snapshot I sent over today should show the two project numbers mentioned above, along with their funding amounts and fiscal years to help give a better picture.

Please let me know if this answers your question, or if you are looking for any additional information that I may assist with.

Thank you,  
Victoria

**Subject:** FW: Mayport Rd Draft TIP Projects

Good Afternoon Victoria!

I received the question below from one of our TAC members. Can you provide information about the timeline of these 2 projects : 4454281 and 4435021 both located in Mayport Rd. There is a concern that you may waste the resurfacing project if you program the context sensitive project to start after the resurfacing is done. Are you coordinating both projects timelines and scopes to maximize results? Read below comments. I will appreciate your input.

Have a great weekend!

Elizabeth

**Sent:** Friday, April 7, 2023 8:44 AM  
**To:** Elizabeth de Jesus <[edejesus@northfloridatpo.com](mailto:edejesus@northfloridatpo.com)>  
**Cc:** Jeff Sheffield <[jsheffield@northfloridatpo.com](mailto:jsheffield@northfloridatpo.com)>  
**Subject:** Mayport Rd Draft TIP Projects

Hi Elizabeth,

I spoke to Jeff briefly about these 2 projects after the TAC meeting Wednesday:

North Florida TPO Transportation Improvement Program - FY 2024 - 2028

Phase	Fund Source	2024	2025	2026	2027	2028	Total
MAYPORT RD (SR 101) FROM ATLANTIC BLVD TO 7TH STREET - Proj# 4454281							
Type of Work: RESURFACING							
					Length: 0.383 MI	'Non-SIS'	
					Lead Agency: FDOT		
CST	DS	0	190,428	0	0	0	190,428
CST	DIH	0	8,579	0	0	0	8,579
CST	SA	0	214,705	0	0	0	214,705
CST	DDR	0	326,503	0	0	0	326,503
CST	ACNR	0	954,240	0	0	0	954,240
	<b>Total</b>	<b>0</b>	<b>1,694,455</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>1,694,455</b>
Prior Years Cost		553,451	Future Years Cost		Total Project Cost		2,247,906
MAYPORT ROAD (SR A1A) - Proj# 4435021							
Type of Work: BIKE LANE/SIDEWALK							
					Length: 1.213 MI	'Non-SIS'	
					Lead Agency: FDOT		
CST	DIH	0	0	108,176	0	0	108,176
CST	SU	0	0	6,287,715	0	0	6,287,715
	<b>Total</b>	<b>0</b>	<b>0</b>	<b>6,395,891</b>	<b>0</b>	<b>0</b>	<b>6,395,891</b>
Prior Years Cost		1,362,225	Future Years Cost		Total Project Cost		7,758,116

They seem to overlap although the first project could be resurfacing only the flyover?

Just figured it would be worth checking to make sure FDOT doesn't plan to resurface and then repurpose the same corridor the following year for the context sensitive improvements.

Thanks!

Colin

Good Afternoon Elizabeth,

I just received an answer relating to your question below. I spoke with the project manager and the answer is yes that they are coordinating the projects. I confirmed that there is currently a request in to revise to have both project funded at FY26. It is intended to have the two projects in question to be LET together.

I hope this answers their question and please let me know if any additional information is needed.

Thank you,  
Victoria

**Subject:** RE: Questions on Jax Airport projects

Good Morning Elizabeth,

Thank you for forwarding over JAA's TIP change request. We have reviewed the list and discussed with Work Program staff to see how we should proceed. We have been informed that since project 425469-2 funding is for future years, currently, our staff cannot make any changes within the work program until after July 1<sup>st</sup>. That being said, the TIP will need to remain as is to match the STIP. Once programming resumes, we can delete/add projects in the work program for FY's 24-28.

Please let us know if you have any questions.

Thank you,  
Victoria

RE: Draft Transportation Improvement Plan, FY2023/24 – FY2027/28 – April 16, 2023

Dear Jeff

My apologies for the delay in sending my comments on the Draft TIP, but 'life' happens. As I commented at the May meeting of the Citizens Advisory Committee, it appears that a Capacity project in the Draft TIP is not in the 2045 Long Range Transportation Plan (LRTP) – Cost Feasible Project list. The project in question appears on Page A-29 of the April 16 Draft on the NFPTO website.

FPID 4389282

Name J. Turner Butler Blvd, (SR 202) from East of I-95 to US 1 [Philips Hwy] and  
US 1 [Philips Hwy] from South of JTB to North of Mustang Road

Work Mix: Add Lanes and Reconstruct

Funding and Phase: CST (DDR and ACFP) \$26.4 million in FY2025/26

I reviewed the Cost Feasible Plan report on the NFPTO website, but I could not find a comparable project. There are no capacity projects listed on this portion of J. Turner Butler Boulevard (SR 202) in the tables that define the 2045 Cost Feasible Plan (CFP).

In the section of the CFP Report on Strategic Intermodal System (SIS) Funded Projects (begin page 10), Table 2 (page 12) lists "SR 202 (J. Turner Butler Blvd.), Project #836, from I-95 (SR 9) to SR 200\* (A1A), for a Planning Study during the then TIP years (FY2019-25). There are no other capacity projects identified on SR 202, J. Turner Butler Boulevard.

In the section of the CFP Report on Other Arterials Projects (begin page 15), Table 4 (page 17) there is a capacity project listed for Philip Highway (US 1), but it does not include the project limits of the project in the TIP.

Facility: US 1 SR 5 Philips Highway

Limits: I-95 at the Avenues Mall to SR 202 J T Butler Blvd.

Improvement: Widen to 6 lanes and Trail

Phase Schedule: FY 2031-35 ROW, ENV, CST

Note that the northern limit of this CFP project is the southern limit of the proposed TIP project, there is no overlap.

The CFP Report includes Appendix A which lists and provides costs for all the Needs Plan projects, from which the CFP is drawn. Note, the Appendix pages are not numbered in the Report, however, the Appendix begins on PDF Page 57, and the project below is near the top of PDF Page 62). Project Number 298 is Philips Highway (US 1/SR 5) from JTB (SR 202) to Emerson Street (SR 126) – Widen and Trail.

Although it does include the Philips Highway limits of the TIP project, this project was not funded in the CFP.

Therefore, I recommend that the following project be removed from the Draft TIP, and the 2050 LRTP consultant be directed to strongly consider this project. As these segments of Butler Boulevard and Philips Highway are SIS Freight Connectors, the proposed TIP project should be eligible for Strategic Intermodal System funding, rather than "Other Arterial" funding.

FPID 4389282

Name J. Turner Butler Blvd, (SR 202) from East of I-95 to US 1 [Philips Hwy] and  
US 1 [Philips Hwy] from South of JTB to North of Mustang Road

Work Mix: Add Lanes and Reconstruct

Funding and Phase: CST (DDR and ACFP) \$26.4 million in FY2025/26

I look forward to discussing this at the June 7 Citizen Advisory Committee meeting. I also hope it is on the Technical Advisory Committee agenda, for their consideration.

Thank you for your consideration  
James Green  
Duval County

\* In reviewing the project on JTB (SR 202) as listed in the CFP, I noted a couple of editorial errors. The eastern end of the project is shown as "SR 200 (A1A)". The identification should just be "SR A1A" as SR 200 is only coincident with SR A1A in Nassau County. Also, I question the project's inclusion in the SIS Project List, as the SIS designation only runs from I-95 to I-295; the segment east of I-295 is not part of the Strategic Intermodal System.

Cc: Jim Robinson, CAC Chair

## What comments do you have about your #1 most important project listed above?

Project numbers are shown on interactive map but dont exist on TIP 5/11/23 amendment

2 days ago

This is an important GAP in the River to Sea Loop Suntrail. It should be accelerated while Suntrail Funding is available. It should also be noted that 2026 will be the centennial of the Ocean Road (now A1A) between St. Augustine and Flagler Beach

2 days ago

Any trail and bike/ped connectivity in St. Johns is a plus

2 days ago

Our city is growing and we should plan now for future needs and flights and attract more airline carriers.

2 days ago

I would to see a multi use trail along the expressway

2 days ago

There have been many pedestrian fatalities the last 4 years on A1A Mickler to Vilano

2 days ago

Urgently needed. This stretch is a death trap. Tourists are darting in to traffic constantly.

2 days ago

none

2 days ago

St. John's county needs to be more walkable.

2 days ago

Serves a wide range of bicyclists and pedestrians in an area where high volumes of bicycle and pedestrian traffic are likely (beaches), and where there are some large new multifamily developments

15 days ago

Sidewalks near schools are important. Children cannot drive.

17 days ago

Congestion on I-295 between SR202 JTB and Southside Connector SR113 has already reached problematic levels. Just 2-3 years ago, congestion was largely limited to peak times. Now, especially southbound between Merrill Rd and St. John's Bluff, heavy congestion is typical through most of the day. This project currently appears to be scheduled beyond the 5 year horizon; this timeline is too slow given the pace of development and existing congestion along this corridor.

The capacity improvements and noise walls proposed in the PD&E are welcome. We should push FDOT to beautify the noise walls as has become standard practice in the Orlando area. Lastly, congestion is currently exacerbated by extended narrow-to-no shoulder zones, resulting in minor accidents not being able to pull off far enough to avoid impeding a lane of travel. In addition to added lanes, any new design should include adequate emergency pull-off clearances so those extra lanes don't end up blocked by minor accidents.

21 days ago

Finding alternate ways for Nocatee/Palencia/WGV to get to Duval county

28 days ago

This is a needed project for St. Johns County and for the state

29 days ago

See above

29 days ago

The relocation of the Amtrak Station is an amazing idea. Not many amtrak stations in the south are even close to their city's Downtown. At the moment, you couldn't even really catch a quick bus from our current station to Downtown. I would've suggested adding an express bus with a bus lane that takes you straight to Downtown, but the relocation solves that problem in a more creative and long term way.

one month ago

I would like to see safer side walks for bike and pedestrians. This includes adding barriers between the street and sidewalk, example trees and shrubs to make pedestrians feel safer. Also more speed bumps on side streets. We cannot leave it to the drivers to make the right decisions. Also more lighting on the smaller streets will make the streets feel safer.

one month ago

I think there are many more important things we should be doing than landscaping and other very unimportant items in your list

one month ago

Add a loop around for traffic to exit 295 directly on to Blanding going southbound

one month ago

Problem with speeding and reckless driving on A1A

one month ago

Build new transportation infrastructure instead of homes.

Transit signal priority is a good step to take to improving our BRT routes. At the moment, the only reason some of our BRTs can really be called BRTs is because they come every 30 mins, which is a good but not healthy enough for someone to opt for the bus instead of the car. We need people out of these cars and onto bikes, buses, and the new commuter rail. The only way to do that is to reduce lanes (by adding new bus lanes, protected bike lanes, and giving signal priority to buses.) This will make sure the buses don't get stuck in traffic, therefore making them a better option to take to your destination. At least its a good step to take.

## What comments do you have about your #2 most important project listed above?

Project numbers are shown on interactive map but dont exist on TIP 5/11/23 amendment

2 days ago

I don't see a project that covers this stretch of US1. I see one FDOT project out of Deland covering the Pellicer Creek Bridge and have made comments on that. However future developments in Flagler County on US1 and Old Kings Road will significantly increase the cyclists wishing to travel north to go either west on CR204, or east to Crescent Beach and the A1A.

2 days ago

Bike/ped and walkability improvements should be prioritized

2 days ago

Focus on intersections with most accidents. Assess why. Need longer advanced green? No turn on red? Etc.

2 days ago

Traffic in downtown St. Augustine is untenable. A total rethink is needed. Car access/parking in to the downtown core needs to be deprioritized in favor of transit and bike access.

2 days ago

Attracts bicyclists from up and down the East Greenway, and represent an opportunity to expand ecotourism in Duval County.

15 days ago

Mayport road is located near homes and connects people to destinations without the use of a car.

17 days ago

As growth continues Downtown and along the Atlantic Boulevard corridor, the Arlington Expressway will grow more critical for the region and the Mathews Bridge will serve as a capacity bottleneck. A revitalized downtown and fully-developed Atlantic Boulevard Corridor will create conditions potentially conducive to a transit corridor, with a major bus hub already located at the Regency Square Mall. Long-range plans should incorporate the possibility of supporting and integrating public transit when the Mathews Bridge replacement is designed. In its mostly abandoned form currently, the Regency Square Mall is ideally situated to serve as a park-and-ride or other transit hub.

21 days ago

Finishing this project will relive local roads and allow shipping further up the St. Johns River.

29 days ago

What comments do you have about your #3 most important project listed above?

Bike Ped facility to be continued north of US17 bridge (Trout bridge) from LRTP would be nice thanks

2 days ago

Major interchange in central St. Johns and arguably the gateway to St. Augustine should be beautified

2 days ago

With more development and car traffic, sidewalks might allow more children to walk or ride bikes to school.

2 days ago

Safety. More development in area and perhaps there could be less traffic if children could walk to school or take their bikes.

2 days ago

A literal death trap. A1A needs less lanes, easier pedestrian crossing, better bike safety, and significant traffic calming in this stretch. I'm in favor of the TPO's proposed "peanut" double-roundabout proposal for the Red Cox intersection in particular.

2 days ago

This route is proposed for Core to Coast Loop Trail route. This bridge will probably not be replaced for another 50 years. Please ensure that plans/design include a biking/walking path or other safe and accommodating infrastructure for cyclists and pedestrians. The region has a need for a regional trails system for recreation and transportation and we need to be thinking long term about how the projects we implement now can lay the groundwork for a trail system. Please coordinate all TIP projects with the TPO & COJ Bike Ped Master Plans and ensure that roadway projects are designed and implemented with a Complete Streets approach.

15 days ago

At least with 4331641, a few people can exercise along the beach. I hope the TPO creates more meaningful bicycle and pedestrian projects in the future.

17 days ago

We are misallocating a huge amount of dedicated funding by pursuing the U2C near-term and pushing BRT/Commuter Rail into the distant future in the LRTP. BRT and Commuter Rail have been used across the country and are proven solutions; U2C is a speculative technology with few available vendors to implement it. Any perceived cost savings of A/Vs when the original study was done have clearly been disproven by the estimated price tag to implement a low-speed, low-capacity solution inferior to standard buses. The hundreds of millions of dollars earmarked for U2C would constitute a massive down-payment towards regional transit improvement priorities that also benefit downtown instead of concentrating a huge amount of taxpayer dollars in a very small area to serve a highly localized population.

21 days ago

Excellent amenity

29 days ago

See above

29 days ago

Complete streets really should have been what we started with when we started building 50 years ago. I would like to add that we really should be making the bike lanes separated and protected rather than just putting some paint down. If its safe enough for a kid to ride in it then its safe to build. We still have time to change, a lot of cities are reinventing themselves and its great to see. The only way we can start making our cities more prosperous is to de-prioritize the car and start buffing other forms of transit.

# 1 - PURPOSE

---

This document is based on a template provided by the Florida Department of Transportation to Florida's metropolitan planning organizations (MPO) with language that Florida's MPOs may incorporate in Transportation Improvement Programs (TIP) to meet the federal transportation performance management rules.

The document is consistent with the Transportation Performance Measures (TPM) Consensus Planning Document developed jointly by the Florida Department of Transportation (FDOT) and the Metropolitan Planning Organization Advisory Council (MPOAC). The Consensus Planning Document outlines the minimum roles of FDOT, the MPOs, and the public transportation providers in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the federal transportation performance management requirements.

The document is organized as follows:

- [Section 2 provides a brief background on transportation performance management;](#)
- [Section 3 covers the Highway Safety measures \(PM1\);](#)
- [Section 4 covers the Bridge and Pavement Condition measures \(PM2\);](#)
- [Section 5 covers System Performance and Freight Movement measures \(PM3\);](#)
- [Section 6 covers Transit Asset Management \(TAM\) measures;](#) and
- [Section 7 covers Transit Safety measures.](#)

## 2 - BACKGROUND

---

Transportation Performance Management (TPM) is a strategic approach to connect transportation investment and policy decisions to help achieve performance goals. Performance measures are quantitative expressions used to evaluate progress toward goals. Performance targets are quantifiable levels of performance to be achieved within a time period. Federal transportation law requires state departments of transportation (DOT), MPOs, and public transportation providers to conduct performance-based planning by tracking performance and establishing data-driven targets to assess progress toward achieving goals. Performance-based planning supports the efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals established by Congress:

- Improving safety;
- Maintaining infrastructure condition;
- Reducing traffic congestion;
- Improving the efficiency of the system and freight movement;
- Protecting the environment; and
- Reducing delays in project delivery.

Federal law requires FDOT, the MPOs, and public transportation providers to coordinate when selecting performance targets. FDOT and the MPOAC developed the TPM Consensus Planning Document to describe the processes through which these agencies will cooperatively develop and share information related to transportation performance management and target setting.

## 3 - HIGHWAY SAFETY MEASURES (PM1)

---

The first of FHWA’s performance management rules establishes measures to assess fatalities and serious injuries on all public roads. The rule requires state DOTs and MPOs to annually establish targets and report performance and progress toward targets to FHWA for the following safety-related performance measures:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

### 3.1 Highway Safety Targets

#### 3.1.1 Statewide Targets

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports targets to FHWA for the following calendar year. On August 31, 2022, FDOT established statewide safety performance targets for calendar year 2023. Table 3.1 presents FDOT’s statewide targets.

**Table 3.1. Statewide Highway Safety Performance Targets**

Performance Measure	Calendar Year 2023 Statewide Target
Number of fatalities	0
Rate of fatalities per 100 million vehicle miles traveled (VMT)	0
Number of serious injuries	0
Rate of serious injures per 100 million vehicle miles traveled (VMT)	0
Number of non-motorized fatalities and serious injuries	0

FDOT adopted a vision of zero traffic-related fatalities in 2012. This, in effect, became FDOT’s target for zero traffic fatalities and quantified the policy set by Florida’s Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*“The mission of the Department of Transportation shall be to provide a **safe** statewide transportation system...”*

FDOT and Florida’s traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by the FHWA, the death or serious injury of any person is unacceptable. The Florida Transportation Plan (FTP), the state’s long-range transportation plan, identifies eliminating transportation-related fatalities and serious injuries as the state’s highest transportation priority. Therefore, FDOT established 0 as the only acceptable target for all five federal safety performance measures.

### **3.1.2 MPO Safety Targets**

MPOs are required to establish safety targets annually within 180 days of when FDOT established targets. MPOs establish targets by either agreeing to program projects that will support the statewide targets or establish their own quantitative targets for the MPO planning area.

The North Florida TPO, along with FDOT and other traffic safety partners, shares a high concern about the unacceptable number of traffic fatalities, both statewide and nationally. As such, on December 8, 2022, the North Florida TPO agreed to support FDOT’s statewide safety performance targets for calendar year 2023, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

## **3.2 Safety Trends in the MPO Area**

After FDOT set its Safety Performance Measures targets in 2018, both FDOT and the North Florida TPO established 2017 Baseline Safety Performance Measures. To evaluate baseline Safety Performance Measures, the most recent five-year rolling average (2013-2017) of crash data and VMT were utilized. Table 3-2 presents the Baseline Safety Performance Measures for Florida and the North Florida TPO.

**Table 3-2 Baseline Safety Performance Measures**

Performance Measure	Florida	North Florida TPO
<b>Number of Fatalities</b>	2,685.6	212.0
<b>Number of Serious Injuries</b>	20,830.0	1328.8
<b>Fatality Rate per 100 Million VMT</b>	1.3	1.3
<b>Serious Injury Rate per 100 Million VMT</b>	10.2	8.2
<b>Total Number of non-Motorized Fatalities and non-Motorized serious injuries</b>	3,253.0	190.8

Source: FDOT 2017 FHWA Performance Measures per MPO

The TIP development process, consistent with the process used to develop the TPO’s Long-Range Transportation Plan, includes analysis of safety data trends, including the location and factors associated with crashes with emphasis on fatalities and serious injuries. These data are used to help identify regional safety issues and potential safety strategies for the LRTP and TIP.

In the North Florida TPO’s **2022 Annual Mobility Report** the North Florida TPO reported the past five years of safety-related performance measures. Table 3-3 summarizes the safety-related performance measure data over the past five years.

**Table 3-3 Five Year Safety Performance Data for the North Florida TPO Region**

<b>Performance Measure</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>	<b>Target</b>
Number of Fatalities	234	232	215	232	266	271	0
Rate of Fatalities per 100 Million VMT	1.378	1.347	1.234	1.301	1.614	1.547	0
Number of Serious Injuries	1,195	1,191	863	869	820	923	0
Rate of Serious Injuries per 100 Million VMT	7.037	6.913	4.977	4.874	4.976	5.368	0
Number of Non-motorized Fatalities and Serious Injuries	189	192	174	173	179	192	0

The data shows that over the past five years fatalities and fatality rates have increased while serious injuries and serious injury rates have increased. Non-motorized fatalities and serious injuries have shown a slight increase during this time-span. The TPO uses crash data tracking fatalities and serious injuries to analyze past trends and identify regional safety issues. Tracking these measures will help to estimate the effectiveness of future TPO transportation investment, as reflected in the TIP.

Looking at individual years shows the volatility of safety data as values can vary greatly between years. Table 3-4 shows the changes in Safety Performance Measures for the North Florida TPO from 2016 through 2021 using a 5-year rolling average. This rolling average smooths the data to provide a better trend analysis.

**Table 3-4 Five-Year Rolling Average of Safety Performance Data for the North Florida TPO Region**

<b>Performance Measure</b>	<b>2012-2016</b>	<b>2013-2017</b>	<b>2014-2018</b>	<b>2015-2019</b>	<b>2016-2020</b>	<b>2017-2021</b>	<b>Target</b>
Number of Fatalities	201.4	212.6	218.6	226.2	235.8	242.2	0
Rate of Fatalities per 100 Million VMT	1.272	1.305	1.309	1.321	1.377	1.411	0
Number of Serious Injuries	1,371	1,328	1,204	1,103	991.2	936.8	0
Rate of Serious Injuries per 100 Million VMT	8.730	8.225	7.256	6.478	5.780	5.446	0
Number of Non-motorized Fatalities and Serious Injuries	199.0	194.0	186.6	180.6	177.0	180.2	0

From the five year averages it becomes clear that fatalities and serious injuries as well as fatlity rates and serious injury rates have consistently decreased. Non-motorized fatalities and serious injuries have decreased consistently until the 2017-2021 average where it showed a slight uptick.

Concurrent with the update of Path Forward 2045, the TPO’s Long Range Transportation Plan, the TPO updated the Regional Congestion Management Process and Regional System Safety Plan incorporating the Federal performance measures and state and performance local targets in both. Historically, the TPO has reported progress in achieving these and other adopted measures in the Annual Mobility Report. The report is available on the TPO website and on-line tool is available as well.

### **3.3 FDOT Safety Planning and Programming**

#### **3.3.1 Florida's Strategic Highway Safety Plan**

Florida's Strategic Highway Safety Plan (SHSP), published in March 2021, identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs and the MPOAC, as well as other statewide traffic safety partners. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education, enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which are referred to as the 4Is: information intelligence, innovation, insight into communities, and investments and policies. The SHSP also embraces an integrated "Safe System" approach that involves designing and managing road infrastructure to keep the risk of a mistake low and to ensure that when a mistake leads to a crash, the impact on the human body does not result in a fatality or serious injury. The five Safe System elements together create a holistic approach with layers of protection: safe road users, safe vehicles, safe speeds, safe roads, and post-crash care.

The SHSP also expands the list of emphasis areas for Florida's safety programs to include six evolving emphasis areas, which are high-risk or high-impact crashes that are a subset of an existing emphasis area or emerging risks and new innovations, where safety implications are unknown. These evolving emphasis areas include work zones, drowsy and ill driving, rail grade crossings, roadway transit, micromobility, and connected and automated vehicles.

#### **3.3.2 Florida's Highway Safety Improvement Program**

While the FTP and the SHSP both highlight the statewide commitment to a vision of zero deaths, the Florida Highway Safety Improvement Program (HSIP) Annual Report documents statewide performance and progress toward that vision. It also lists all HSIP projects that were obligated during the reporting year and the relationship of each project to the SHSP.

As discussed above, in the 2022 HSIP Annual Report, FDOT reported 2023 statewide safety performance targets at "0" for each safety performance measure to reflect the vision of zero deaths. Annually, FHWA determines whether Florida has met the targets or performed better than baseline for at least four of the five measures. If this does not occur FDOT must submit an annual implementation plan with actions, it will take to meet targets in the future.

On April 21, 2022, FHWA reported the results of its 2020 safety target assessment. FHWA concluded that Florida had not met or made significant progress toward its 2020 safety targets, noting that zero had not been achieved for any measure and that only three out of five measures (number of serious injuries, serious injury rate, and number of non-motorized fatalities and serious injuries) were better than baseline. Subsequently, FDOT developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support

of the safety targets. This plan was submitted with the HSIP Annual Report to FHWA on August 31, 2022 and is available at <https://www.fdot.gov/Safety/safetyengineering/reports-and-plans>.

Consistent with FHWA requirements, the HSIP Implementation Plan focuses specifically on implementation of the HSIP as a core federal-aid highway program and documents the continued enhancements planned for Florida's HSIP to better leverage the benefits of this program. However, recognizing that FDOT already allocates all HSIP funding to safety programs - and building on the integrated approach that underscores FDOT's safety programs - the HSIP Implementation Plan also documents how additional FDOT, and partner activities may contribute to progress toward zero. Building on the foundation of prior HSIP Implementation Plans, the 2022 HSIP Implementation Plan identifies the following key commitments:

- Improve partner coordination and align safety activities.
- Maximize HSIP infrastructure investments.
- Enhance safety data systems and analysis.
- Focus on safety marketing and education on target audiences.
- Capitalize on new and existing funding opportunities.

Florida conducts extensive safety data analysis to understand the state's traffic safety challenges and identify and implement successful safety solutions. Florida's transportation system is evaluated using location-specific analyses that evaluate locations where the number of crashes or crash rates are the highest and where fatalities and serious injuries are most prominent. These analyses are paired with additional systemic analyses to identify characteristics that contribute to certain crash types and prioritize countermeasures that can be deployed across the system as a whole. As countermeasures are implemented, Florida also employs predictive analyses to evaluate the performance of roadways (i.e., evaluating results of implemented crash modification factors against projected crash reduction factors).

FDOT's State Safety Office works closely with FDOT Districts and regional and local traffic safety partners to develop the annual HSIP updates. Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. [FDOT's HSIP Guidelines](#) provide detailed information on this data-driven process and funding eligibility.

Florida received an allocation of approximately \$189 million in HSIP funds for use during the 2021 state fiscal year from July 1, 2021 through June 30, 2022, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete projects that address intersections, lane departure, pedestrian and bicyclist safety, and other programs representing the remaining SHSP emphasis areas. This year's HSIP allocated \$159.7 million in infrastructure investments on state-maintained roadways and \$22.1 million in infrastructure investments on local roadways. The remaining \$7.2 million included supporting activities such as transportation safety planning, preliminary engineering, traffic engineering studies, transportation statistics, and public information or education. A list of HSIP projects can be found in the [HSIP 2021 Annual Report](#).

Beginning in fiscal year 2024, HSIP funding will be distributed among FDOT Districts based on statutory formula to allow the Districts to have more clearly defined funding levels for which they can better plan to select and fund projects. MPOs and local agencies coordinate with FDOT Districts to identify and implement effective highway safety improvement projects on non-state roadways.

### **3.3.3 Additional FDOT Safety Planning Activities**

In addition to HSIP, safety is considered as a factor in FDOT planning and priority setting for projects in preservation and capacity programs. Data is analyzed for each potential project, using traffic safety data and traffic demand modeling, among other data. The [Florida PD&E Manual](#) requires the consideration of safety when preparing a proposed project's purpose and need as part of the analysis of alternatives. Florida design and construction standards include safety criteria and countermeasures, which are incorporated in every construction project. FDOT also recognizes the importance of the American Association of State Highway Transportation Official (AASHTO) Highway Safety Manual (HSM). Through dedicated and consistent training and messaging over the last several years, the HSM is now an integral part of project development and design.

FDOT holds Program Planning Workshops annually to determine the level of funding to be allocated over the next 5 to 10 years to preserve and provide for a safe transportation system. Certain funding types are further analyzed and prioritized by FDOT Central Offices, after projects are prioritized collaboratively by the MPOs, local governments, and FDOT Districts; for example, the Safety Office is responsible for the HSIP and Highway Safety Program (HSP) and the Systems Implementation Office is responsible for the Strategic Intermodal System (SIS). Both the Safety and SIS programs consider the reduction of traffic fatalities and serious injuries in their criteria for ranking projects.

## **3.4 Safety Investments in the TIP**

The TIP includes projects that fall into specific investment priorities established by the MPO in the LRTP. This includes safety programs such as roadway lighting, traffic signals, bike lanes, sidewalks, intersection improvements and technology safety projects.

Safety is a priority for the North Florida TPO. In 2019 the TPO updated the Regional System Safety Plan, identifying high crash corridors and intersections and high pedestrian and bicycle crash corridors and intersections. An update to the Safety Plan is being performed in 2023 and will become an aid for prioritizing safety projects in the TIP

The TPO's commitment to safety is reflected in Path Forward 2045, the Long Range Transportation Plan in the Annual List of Priority Project's and in the Unified Planning Work Program. District 2 identifies high crash corridors and intersections in the List of Priority Projects for special consideration in project programming. In the Unified Planning Work Program (UPWP), the TPO studies corridors of concern to local governments who in turn request safety recommended safety enhancements. The TPO further demonstrates its commitment by contributing CM and SU funding to these projects when necessary.

The TIP FY 2024 to 2028 includes numerous projects that improve safety conditions. It is difficult to quantify the complete impact of safety related projects as nearly all projects include a safety element. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives. These projects explicitly focused on safety fall in the following categories:

1. Bike lane/Sidewalk
2. Lighting
3. Traffic control devices/system
4. Safety projects
5. Signing and pavement markings
6. Intersection Improvements

A summary of safety projects by county are listed below:

### Clay County

ID	Description	Active Funding	County	Work Type
4420351	KEYSTONE APK INSTALL WEATHER SYSTEM PFL0010612	\$300,000	CLAY	AVIATION SAFETY PROJECT

4386102	I-95(SR9) ST JOHNS SOUTHBOUND REST AREA	\$23,385,962	ST. JOHNS	REST AREA (DUAL)
4135341	D2-ST JOHNS COUNTY TRAFFIC SIGNAL MAINTENANCE AGREEMENT	\$2,564,755	ST. JOHNS	TRAFFIC CONTROL DEVICES/SYSTEM

Because safety is inherent in so many FDOT and North Florida TPO programs and projects, and because of the broad and holistic approach FDOT is undertaking with its commitment to Vision Zero, the program of projects in this TIP is anticipated to support progress towards achieving the safety targets.

## **4 – PAVEMENT & BRIDGE CONDITION MEASURES (PM2)**

---

FHWA’s Bridge & Pavement Condition Performance Measures Final Rule, which is also referred to as the PM2 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

1. Percent of NHS bridges (by deck area) classified as in good condition;
2. Percent of NHS bridges (by deck area) classified as in poor condition;
3. Percent of Interstate pavements in good condition;
4. Percent of Interstate pavements in poor condition;
5. Percent of non-Interstate National Highway System (NHS) pavements in good condition; and
6. Percent of non-Interstate NHS pavements in poor condition;

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Cracking percent - percentage of pavement surface exhibiting cracking; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Rutting - extent of surface depressions; applicable to asphalt pavements only;
- Faulting - vertical misalignment of pavement joints; applicable to jointed concrete pavements only; and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

### **4.1 Bridge & Pavement Condition Targets**

#### ***4.1.1 Statewide Targets***

Federal rules require state DOTs to establish two-year and four-year targets for the bridge and pavement condition measures. On December 16, 2022, FDOT established statewide bridge and pavement targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida’s performance through 2021 exceeds the targets. The two-year targets represent bridge and pavement condition at the end of calendar year 2023, while the four-year targets represent condition at the end of 2025. Table 4.1 presents the statewide targets.

**Table 4.1. Statewide Pavement and Bridge Condition Performance Targets**

<b>Performance Measure</b>	<b>2023 Statewide Target</b>	<b>2025 Statewide Target</b>
Percent of NHS bridges (by deck area) in good condition	50.0%	50.0%
Percent of NHS bridges (by deck area) in poor condition	10.0%	10.0%
Percent of Interstate pavements in good condition	60.0%	60.0%
Percent of Interstate pavements in poor condition	5.0%	5.0%
Percent of non-Interstate pavements in good condition	40.0%	40.0%
Percent of non-Interstate pavements in poor condition	5.0%	5.0%

For comparative purposes, the baseline (2021) conditions are as follows:

- 61.3 percent of NHS bridges (by deck area) is in good condition and 0.5 percent is in poor condition.
- 70.5 percent of the Interstate pavement is in good condition and 0.7 percent is in poor condition;
- 47.5 percent of the non-Interstate NHS pavement is in good condition and 1.1 percent is in poor condition; and

In determining its approach to establishing performance targets for the federal bridge and pavement condition performance measures, FDOT considered many factors. FDOT is mandated by Florida Statute 334.046 to preserve the state’s bridges and pavement to specific state-defined standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These state statutory guidelines envelope the statewide federal targets that have been established for pavements and bridges.

In addition, FDOT develops a Transportation Asset Management Plan (TAMP) for all NHS pavements and bridges within the state. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the State’s targets for asset condition and performance of the NHS. FDOT’s first TAMP was approved on June 28, 2019. The TAMP has since been updated in 2022 and is waiting final approval from FHWA.

Further, the federal pavement condition measures require a methodology that is different from the methods historically used by FDOT. For bridge condition, the performance is measured in deck area under the federal measure, while FDOT programs its bridge repair or replacement work on a bridge-by-bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT. For pavement condition, the methodology uses different ratings and pavement segment lengths, and FDOT only has one year of data available for non-Interstate NHS pavement using the federal methodology.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. The percentage of Florida’s bridges in good condition is slowly decreasing, which is to be expected as the bridge inventory grows older. Reported bridge and pavement data through 2021 exceeded the

established targets. Based on anticipated funding levels, FDOT believes the previous targets are still appropriate for 2023 and 2025.

In early 2021, FHWA determined that FDOT made significant progress toward the 2019 targets; FHWA's assessment of progress toward the 2021 targets is anticipated to be released in March 2023.

#### **4.1.2 MPO Targets**

MPOs must set four-year targets for the six bridge and pavement condition measures within 180 days of when FDOT established targets. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On February 9, 2023, the North Florida TPO agreed to support FDOT's statewide bridge and pavement performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

### **4.2 Bridge & Pavement Investments in the TIP**

The North Florida TPO TIP reflects investment priorities established in Path Forward, the 2045 LRTP. The focus of the North Florida TPO's investments in bridge and pavement condition include bridge replacement and reconstruction, new bridge capacity on the NHS, system resiliency projects, pavement reconstruction on the NHS and new lanes and widening on the NHS. Bridge and pavement investments in the TIP support Goal 6 of the LRTP as shown below:

#### **GOAL 6: PRESERVE AND MAINTAIN OUR EXISTING SYSTEM**

Preserving and maintaining the existing system is integral to the optimization of mobility. The Federal Highway Administration (FHWA) and Florida Department of Transportation (FDOT) established formal goals and objectives for systems preservation that are proposed for adoption as part of this LRTP. They include:

1. Have 95 percent of the Strategic Intermodal System in good or better condition.
2. Have 85 percent of other arterials in good or better condition.
3. Strengthen bridges that are either (1) structurally deficient or (2) posted for weight restriction within six years on FDOT facilities.
4. Replace bridges that require structural repair and are more cost effective to replace within nine years on FDOT facilities.
5. Satisfy FDOT's off system bridge replacement goals.
6. Maintain signing and pavement markings to accommodate all users including automated vehicles.
7. Maintain technology/infrastructure introduced to accommodate connected vehicles

In addition, the objective of the systems preservation and maintenance goal is to provide a transit fleet that meets Federal Transit Administration's (FTA's) requirements for system preservation, vehicle age and maintenance.

The TIP devotes a significant amount of resources to projects that will maintain bridge and pavement condition performance. Investments in bridge and pavement condition include bridge replacement and reconstruction, pavement replacement and reconstruction, and new bridge and pavement capacity. The TIP will fund \$404 million for bridges, \$584 million for resurfacing, and \$885 million for new capacity.

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

The North Florida TPO supports District 2's bridge and pavement decisions reflected in the Work Program and TIP with projects in Clay, Duval, Nassau and St. Johns Counties. These projects include the following:

**Clay County Bridge and Pavement Projects**

## 5 - SYSTEM PERFORMANCE, FREIGHT, & CONGESTION MITIGATION & AIR QUALITY IMPROVEMENT PROGRAM MEASURES (PM3)

---

FHWA's System Performance/Freight/CMAQ Performance Measures Final Rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

### **National Highway Performance Program (NHPP)**

1. Percent of person-miles traveled on the Interstate system that are reliable
2. Percent of person-miles traveled on the non-Interstate NHS that are reliable;

### **National Highway Freight Program (NHFP)**

3. Truck Travel Time Reliability index (TTTR);

### **Congestion Mitigation and Air Quality Improvement Program (CMAQ)**

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NO<sub>x</sub>, VOC, CO, PM<sub>10</sub>, and PM<sub>2.5</sub>) for CMAQ funded projects.

Because all areas in Florida meet current national air quality standards, the three CMAQ measures do not apply in Florida. A description of the first three measures is below.

The first two performance measures assess the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. Reliability is defined as the ratio of longer travel times to a normal travel time over of all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day.

The third performance measure assesses the reliability of truck travel on the Interstate system. The TTTR assesses how reliable the Interstate network is by comparing the worst travel times for trucks against the travel time they typically experience.

## **5.1 System Performance and Freight Targets**

### ***5.1.1 Statewide Targets***

Federal rules require state DOTs to establish two-year and four-year targets for the system performance and freight targets. On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. These targets are identical to those set for 2019 and 2021, respectively. Florida's performance through 2021 exceeds the targets. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025. Table 5.1 presents the statewide targets.

**Table 5.1. Statewide System Performance and Freight Targets**

<b>Performance Measure</b>	<b>2023 Statewide Target</b>	<b>2025 Statewide Target</b>
Percent of person-miles traveled on the Interstate system that are reliable	75.0%	70.0%
Percent of person-miles traveled on the non-Interstate NHS that are reliable	50.0%	50.0%
Truck travel time reliability (Interstate)	1.75	2.00

For comparative purposes, baseline (2021) statewide conditions are as follows:

- 87.5 percent of person-miles traveled on the Interstate are reliable;
- 92.9 percent of person-miles traveled on the non-Interstate are reliable; and
- 1.38 truck travel time reliability index.

In establishing these targets, FDOT reviewed external and internal factors that may affect reliability, analyzed travel time data from the National Performance Management Research Dataset (NPMRDS), and developed a sensitivity analysis indicating the level of risk for road segments to become unreliable.

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. Performance for all three measures improved from 2017 to 2021, with some disruption in the trend during the global pandemic in 2020. Actual performance in 2019 was better than the 2019 targets, and in early 2021 FHWA determined that FDOT made significant progress toward the 2019 targets. FHWA’s assessment of progress toward the 2021 targets is anticipated to be released in March 2023.

The methodologies for the PM3 measures are still relatively new, and the travel time data source has changed since the measures were first introduced. As a result, FDOT only has three years (2017-2019) of pre-pandemic travel reliability trend data as a basis for future forecasts. Based on the current data, Florida’s performance continues to exceed the previous targets. Given the uncertainty in future travel behavior, FDOT believes the previous targets are still appropriate for 2023 and 2025.

System performance and freight are addressed through several statewide initiatives:

- Florida’s Strategic Intermodal System (SIS) is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT’s capacity investments and is Florida’s primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida’s transportation system and account for a dominant share of the people and freight movement to, from and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT’s focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA’s TPM program. The SIS Policy Plan was updated in early 2022 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investments needs are identified and prioritized. The development of the SIS Five-Year Plan by

FDOT considers scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).

- In addition, FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In May 2020, FHWA approved the FMTP as FDOT's State Freight Plan.
- FDOT also developed and refined a methodology to identify freight bottlenecks on Florida's SIS on an annual basis using vehicle probe data and travel time reliability measures. Identification of bottlenecks and estimation of their delay impact aids FDOT in focusing on relief efforts and ranking them by priority. In turn, this information is incorporated into FDOT's SIT to help identify the most important SIS capacity projects to relieve congestion.

### ***5.1.2 MPO Targets***

MPOs must establish four-year targets for all three performance measures. MPOs can either agree to program projects that will support the statewide targets or establish their own quantifiable targets for the MPO's planning area for one or more measures.

On February 9, 2023, the North Florida TPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets.

## **5.2 System Performance and Freight Investments in the TIP**

The North Florida TPO has a long history of investing in technology to improve system performance. The TPO has upgraded signal controllers throughout the region, procured BlueToad devices to monitor the performance of major arterials throughout the region, paid for the installation of wind sensors on bridges throughout the region and funded construction of the regional transportation management center. Real-time data is available to the public on the TPO's website and to public and private agencies.

Since 2014 and the completion of the 2013 Congestion Management Process (CMP) the North Florida TPO has reported annually on progress made in achieve performance measures adopted in the CMP. The 2019 CMP, Path Forward 2045 and the Regional System Safety Plan which were also adopted in 2019 all included the Federal performance measures and FDOT/North Florida TPO targets. Progress made is reported in subsequent Annual Mobility Reports.

The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. Investments include corridor improvements, intersection improvements, mode shift investments, managed lanes, freight improvements, TSMO/ITS projects and travel demand management programs. The TIP will fund \$31 million for intersection improvements, \$936 million for congestion relief projects, \$1.7 billion for freight-related projects, \$6 million for managed lanes, and \$86 million for TSMO projects.

The North Florida TPO TIP reflects investment priorities established in Path Forward, the 2045 LRTP. The focus of the North Florida TPO's investments that address system performance and freight include the following:

## Sidewalks/Bike Lanes/Trails

ID	Description	Active Funding	County	Work Type
4477361	SRA1A FROM MAGNOLIA AVE TO TWENTY FOURTH ST.	\$605,000	ST. JOHNS	BIKE PATH/TRAIL
4470601	SRA1A ANASTASIA STATE PARK FROM POPE ROAD TO RED COX DRIVE	\$4,505,880	ST. JOHNS	BIKE PATH/TRAIL
4435541	SRA1A(AVENIDA MENENDEZ) FROM KING ST/CATHEDRAL PLACE TO CASTILLO DRIVE	\$2,097,782	ST. JOHNS	PEDESTRIAN SAFETY IMPROVEMENT

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

## 6 - TRANSIT ASSET MANAGEMENT MEASURES

### Transit Asset Performance Measures

FTA's Transit Asset Management (TAM) regulations apply to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The regulations define the term "state of good repair," require that public transportation providers develop and implement TAM plans, and established state of good repair standards and performance measures for four asset categories: equipment, rolling stock, transit infrastructure, and facilities. Table 6.1 identifies the TAM performance measures.

**Table 6.1. FTA TAM Performance Measures**

Asset Category	Performance Measure
1. Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
2. Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their Useful Life Benchmark
3. Infrastructure	Percentage of track segments with performance restrictions
4. Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, useful life benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider's operating environment. ULB considers a provider's unique operating environment such as geography, service frequency, etc.

Public transportation providers are required to establish and report TAM targets annually for the following fiscal year. Each public transportation provider or its sponsors must share its targets with each MPO in which the public transportation provider's projects and services are programmed in the MPO's TIP. MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the most current transit provider targets in the TIP if they have not yet taken action to update MPO targets). When establishing TAM targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area. To the maximum extent practicable, public transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM regulation defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service, or more than 100 vehicles in all fixed route modes, or more than 100 vehicles in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes or have 100 or less vehicles in one non-fixed route mode. A Tier I provider must establish its own TAM targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or

to participate in a Group Plan with other Tier II providers whereby targets are established for the entire group in coordination with a group plan sponsor, typically a state DOT.

### 6.1 FDOT Group TAM Plan Participants

A total of 18 public transportation providers participated in the FDOT Group TAM Plan and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (Table 6.2). These are FDOT’s Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in September 2022 and covers fiscal years 2022-2023 through 2025-2026. Group TAM Plan targets for fiscal year 2022 were submitted to NTD in July 2022. The TPO boundary includes the Nassau County Council on Aging/Nassau TRANSIT as identified in Table 6.2.

**Table 6.2. Florida Group TAM Plan Participants**

District	Participating Transit Providers
1	Central Florida Regional Planning Council
2	Baker County Council on Aging Big Bend Transit* Levy County Transit Nassau County Council on Aging/Nassau TRANSIT Ride Solution (Putnam County) Suwannee River Economic Council Suwannee Valley Transit Authority
3	Big Bend Transit* Calhoun County Senior Citizens Association Gulf County ARC JTRANS Liberty County Transit Tri-County Community Council Wakulla Transportation
4	<i>No participating providers</i>
5	Flagler County Public Transportation Marion Transit Sumter County Transit
6	Key West Transit
7	<i>No participating providers</i>

\* Provider service area covers portions of Districts 2 and 3.

## **6.2 Transit Asset Management Targets**

The following providers operate in the MPO planning area: Jacksonville Transportation Authority (JTA), St. Johns County Sunshine Bus, and Nassau County Transit. JTA and St. Sunshine Bus are considered Tier I providers and, as such, each must develop a TAM Plan. Nassau County Transit is considered a Tier II provider and is included in the group TAM plan developed by the FDOT Public Transit Office in Tallahassee. JTA also provides transit service in Clay County as the Community Transportation Coordinator for that county.

### ***6.2.1 Transit Provider Targets***

The Jacksonville Transportation Authority (JTA) established TAM targets for each of the applicable asset categories on February 14, 2019. Table 6.3a presents the targets currently listed in their Transit Asset Management Plan. The St. Johns County Sunshine Bus established TAM targets for each of the applicable asset categories on October 20, 2018. Table 6.3b presents the targets.

Nassau County Council on Aging/Nassau TRANSIT is part of the Group TAM Plan for Fiscal Years 2018/2019-2021/2022 developed by FDOT for Tier II providers in Florida. The FY 2020 asset conditions and FY 2021 targets for the Tier II providers are shown in Table 6.4.

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

**Table 6.3a. Transit Asset Management Targets for Jacksonville Transportation Authority**

Asset Category - Performance Measure	Asset Class	FY 2022 Target	FY 2022 Asset Condition	FY 2023 Target
<b>Equipment</b>				
Age - % of non-revenue service vehicles exceeds UL of 4yrs or 100,000 miles	Automobile	100%	100%	100%
	Trucks and Other Rubber Tire Vehicles	66%	60%	58%
	SUVs	48%	42%	41%
	Trucks	85%	85%	76%
	Vans	100%	100%	100%
% of non-revenue service vehicles exceeds UL of 18yrs	Boats	100%	100%	100%
<b>Rolling Stock</b>				
Age - % of fleet exceeds UL of 12 yrs or 500,000 miles	Buses (JTA/CC)	23%	17%	18%
Age - % of fleet exceeds UL of 5 yrs or 150,000 miles	Cutaways (JTA/CC)	55%	62%	67%
Age - % of fleet exceeds UL of 4 yrs or 100,000 miles	Vans (JTA/CC)	9%	33%	25%
Age - % of fleet exceeds UL of 25 yrs	Automated Guideway Vehicle	0%	0%	0%
	Ferryboat	0%	0%	0%

Asset Category - Performance Measure	Asset Class	FY 2022 Target	FY 2022 Asset Condition	FY 2023 Target
<b>Infrastructure</b>				
% of track segments under performance restriction	Rail Fixed Guideway	8%	1%	8%
<b>Facilities</b>				
Condition - % of facilities rated under 3.0 on TERM scale	Admin/Maintenance Facilities	3%	0%	0%
	Passenger/Parking Facilities	3%	3%	3%
	Passenger Facilities	0%	0%	0%
	Parking Facilities	4%	4%	4%

**Table 6.3.b St. Johns County Sunshine Bus Transit Asset Targets and Measures**

<b>Performance Targets &amp; Measures</b>				
Asset Category - Performance Measure	Asset Class	2022 Target	2022 Performance	2023 Target
Percent of revenue vehicles that have met or exceeded their useful life benchmark	CU - Cutaway Bus	56%	53.85%	57%
	MV - Mini-van	0%	100%	50%
Percent of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue/Service Automobile	0%	50%	0%
Percent of facilities rated below 3 on the condition scale	Administrative / Maintenance Facilities	0%	0%	0%

**Table 6.4. FDOT Group Plan Transit Asset Management Targets for Tier II Providers**

<b>Asset Category - Performance Measure</b>	<b>Asset Class</b>	<b>FY 2021 Asset Conditions</b>	<b>FY 2022 Performance Target</b>
<b>Revenue Vehicles</b>			
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Automobile	0%	0%
	Bus	21.54%	20.46%
	Cutaway Bus	9.81%	9.32%
	School Bus	100.0%	95%
	Mini-Van	19.59%	18.61%
	SUV	20%	19%
	Van	40.58%	38.55%
<b>Equipment</b>			
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	75%	71.25%
	Trucks and other Rubber Tire Vehicles	6.25%	5.94%
<b>Facilities</b>			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/Parking Facilities	0%	0%
	Administration/Maintenance Facilities	6.67%	6.34%

**6.2.2 MPO Transit Asset Management Targets**

As discussed above, MPOs are not required to establish TAM targets annually each time the transit provider establishes targets. Instead, MPO’s must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional TAM targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On October 11, 2018 the North Florida TPO agreed to support St. Johns County Sunshine Bus and Tier II transit agencies asset targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider’s targets.

On February 14, 2019 the North Florida TPO agreed to support the JTA’s TAM targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider’s targets.

### 6.3 Transit Asset Management Investments in the TIP

The North Florida TPO TIP was developed and is managed in cooperation with JTA, St. Johns County Sunshine Bus, and Nassau County Transit. It reflects the investment priorities established in the Path Forward 2045, the adopted Long Range Transportation Plan. The investments in this TIP reflect the TPO’s commitment to addressing transit asset age and performance measures.

FTA funding, as programmed by the region’s transit providers and FDOT, is used for programs and products to improve the condition of the region’s transit assets. The focus of the North Florida TPO’s investments that address transit state of good repair include bus and other vehicle purchases and replacement, equipment purchases and replacements, retrofits and repair, rehabilitation, and replacement of transit facilities and infrastructure.

To assist the Tier 1 providers in meeting their TAM targets the North Florida TPO provides the following financial assistance annually:

- FM 4067899 St Johns County BCC STP funds for Purchase of Buses/Equipment (\$375,000 )
- FM 2159233 JTA/STP Funds Duval County Purchase Buses/Equipment (\$1,125,000)

Additionally, the following projects are programmed in the TIP to aid in meeting transit asset management targets:

ID	Description	Active Funding	County	Work Type
4089671	JACKSONVILLE JTA SECT 5307 FORMULA GRANT TRANSIT PLANNING TASKS	\$9,213,170	DUVAL	CAPITAL FOR FIXED ROUTE
4511501	5310 CAPITAL - JACKSONVILLE UZA - JTA	\$804,098	DUVAL	CAPITAL FOR FIXED ROUTE
4040201	JACKSONVILLE JTA SECT 5307 FORMULA GRANT CAPITAL PURCHASES	\$75,000,000	DUVAL	CAPITAL FOR FIXED ROUTE
4068441	JACKSONVILLE JTA SECT 5307 FORMULA GRANT CAPITAL PURCHASES	\$23,147,440	DUVAL	CAPITAL FOR FIXED ROUTE
4117601	JACKSONVILLE JTA SECT 5307 FORMULA GRANT CAPITAL PURCHASES	\$15,650,455	DUVAL	CAPITAL FOR FIXED ROUTE
4292031	ST JOHNS CNTY FED 5307 CAPITAL GRANT	\$5,916,370	ST. JOHNS	CAPITAL FOR FIXED ROUTE
4154076	INTERMODAL CONTINGENCY PROGRAM 11,84	\$10,328,360	DUVAL	INTERMODAL HUB CAPACITY
4337161	SECTION 5337 JTA STATE OF GOOD REPAIR	\$4,535,735	DUVAL	TRANSIT IMPROVEMENT

ID	Description	Active Funding	County	Work Type
4337151	JTA BUS AND BUS FACILITIES SECTION 5339	\$11,297,650	DUVAL	TRANSIT IMPROVEMENT
4360832	NASSAU OPERATIONAL FUNDS TO SUPPORT JOB ACCESS TRANSPORTATION	\$120,000	NASSAU	TRANSIT IMPROVEMENT
4415221	ST. JOHNS COUNTY TRANSIT IMPROVEMENT SECTION 5339	\$1,043,750	ST. JOHNS	TRANSIT IMPROVEMENT
2164533	CITY OF ST. AUGUSTINE DOWNTOWN CIRCULATOR PHASE I	\$3,000,000	ST. JOHNS	URBAN CORRIDOR IMPROVEMENTS

Transit asset condition and state of good repair is a consideration in the methodology the North Florida TPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO’s goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO’s planning area. This prioritization process considers factors such as useful life benchmarks and maintain a state of good repair. To support progress towards TAM performance targets, transit investment and maintenance funding in the LRTP Path Forward 2045 accounted for approximately 15.5 percent of total LRTP funding (not including SIS funding) and 35 percent of requested Jacksonville Transportation Authority funding for transit preservation. Improving the State of Good Repair (SGR) of capital assets is an overarching goal of this process.

The TIP devotes resources to projects that will maintain and improve transit state of good repair. Investments in transit assets in the TIP include \$150 million for vehicle and facility improvements.

The North Florida TPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the TAM performance targets. The North Florida TPO will continue to coordinate with the JTA, St. Johns County Sunshine Bus and Nassau County Transit to maintain the region’s transit assets in a state of good repair. For more information on these programs and projects, see sections B, E and G of the main TIP document.

Investment decisions for asset replacement in the FDOT Group TAM Plan inventory are made with the goal to maintain or improve the percentage of vehicles, equipment, and facilities in an adequate or better condition. FDOT and its subrecipient transit providers will monitor all assets for unsafe conditions. Identifying an opportunity to improve the safety of an asset, however, does not necessarily indicate an unsafe condition. If an unacceptable safety risk associated with an asset is identified, that asset will be ranked with higher investment priority to the extent practicable. The subrecipients prioritize the rehabilitation and replacement of vehicles that provide transit service over non-revenue vehicles and facilities.

## 7 - TRANSIT SAFETY PERFORMANCE

---

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the National Public Transportation Safety Plan, which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 public transportation provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements.<sup>1</sup>

Each public transportation provider that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs). When establishing transit safety targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the North Florida TPO must reflect those targets in LRTP and TIP updates.

---

<sup>1</sup> FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at <https://www.fdot.gov/transit/default.shtm>

## 7.1 Transit Safety Targets

The following public transportation provider(s) operate in the North Florida TPO planning area: JTA, St. Johns County Sunshine Bus, and Nassau County Transit. Of these, JTA and St. Johns County Sunshine Bus are responsible for developing a PTASP and establishing transit safety performance targets annually.

### 7.1.1 Transit Agency Safety Targets

The JTA and St. Johns County/Sunshine Bus both established the transit safety targets identified in Table 7.1 in July 2020. These targets are updated or affirmed annually. The values displayed in the Table reflect the latest annual update from July 2022.

**Table 7.1. Transit Safety Performance Targets for JTA and St. Johns County/Sunshine Bus**

Transit Mode	Fatalities (total)	Fatalities (rate)	Injuries (total)	Injuries (rate)	Safety Events (total)	Safety Events (rate)	System Reliability
<b>Jacksonville Transportation Authority</b>							
Fixed Route Bus	0	0	63	0.6	365	3.5	20,000 VRM
ADA/Paratransit	0	0	9	0.2	190	4	27,500 VRM
Rail	0	0	4	3	16	12	9,440 VRM
Ferry	0	0	1	NA	1	NA	NA
<b>St. Johns County/Sunshine Bus</b>							
Fixed Route Bus	0	0	5	0.5	10	0.9	0.5
Paratransit	0	0	8	1.04	5	0.65	0.75

### 7.1.2 MPO Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO’s must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On October 8, 2020 the North Florida TPO agreed to support both the Jacksonville Transportation Authority and St. Johns County/Sunshine Bus transit safety targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider’s targets

### 7.2 Transit Safety Investments in the TIP

The North Florida TPO TIP was developed and is managed in cooperation with JTA, St. Johns County Sunshine Bus, and Nassau County Transit. It reflects the investment priorities established in the Path Forward 2045 LRTP.

FTA funding, as programmed by the region’s transit providers and FDOT, is used for programs and products to improve the safety of the region’s transit systems. The focus of the North Florida TPO’s investments that address transit safety include the following projects:

ID	Description	Active Funding	County	Work Type
4117591	JACKSONVILLE JTA STATE BLOCK GRANT OPERATING FUNDS	\$53,274,416	DUVAL	OPERATING FOR FIXED ROUTE
4067898	ST.JOHNS CNTY FED 5307 OPERATING GRANT	\$20,000,000	ST. JOHNS	OPERATING FOR FIXED ROUTE
4358651	5310 OPERATING ASSISTANCE FOR ST. JOHNS COUNCIL ON AGING (COA)	\$326,426	ST. JOHNS	OPERATING FOR FIXED ROUTE
4184411	ST. JOHNS COUNTY BLOCK GRANT OPERATING FUNDS	\$6,728,932	ST. JOHNS	OPERATING FOR FIXED ROUTE
4453331	JTA BLUE LINE FLEX ROUTE - OPERATIONS	\$570,000	DUVAL	URBAN CORRIDOR IMPROVEMENTS
4453332	JTA RED LINE FLEX ROUTE - OPERATIONS	\$352,000	DUVAL	URBAN CORRIDOR IMPROVEMENTS
4462162	JTA CLAY EXPRESS SELECT ROUTE - OPERATIONS	\$810,500	DUVAL	URBAN CORRIDOR IMPROVEMENTS

Transit safety is a consideration in the methodology the North Florida TPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO’s goals, including transit safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO’s planning area. This prioritization process is primarily driven by the strong partnership with the TPO’s regional transit agencies. These agencies are included in the TPO’s board and committees and have strong influence over the TIP development and LRTP direction.

The North Florida TPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The North Florida TPO will continue to coordinate with the JTA, St. Johns County Sunshine Bus, and Nassau County Transit to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair.

The TIP devotes resources to projects that will maintain and improve transit safety. Investments in transit safety in the TIP include \$82 million for operating and safety programs and projects. For more information on these programs and projects, see sections B, E and G of the main TIP document.
